

"Ginger Group" Is Formed In South To "Stir Things Up"

New Plan For Fruit Is Outlined at Meeting in Penticton

PENTICTON, B.C., Nov. 30.—The self-styled 'ginger group' of fruit politicians, meeting here last Thursday afternoon, offered a discussion of the proposed warehousing plan, criticized the B.C.F.G.A. and the shippers, and then outlined a new plan for marketing which, it was decided, will be distributed for study among the various B.C.F.G.A. locals.

The "ginger group", it was explained at the outset by Reeve W. G. Wilkins, with Oxford dictionary in hand, is to be patterned after the parliamentary group of the same name. They were so called because they "stirred things up and got things done."

There was considerable "stirring up" at the meeting. There were strong words. "The shippers are our employees; if our employees will not do what we tell them, then to hell with them." This was one comment from D. Godfrey Isaacs of Quana.

The proposed new plan would involve the setting up of a grower-controlled exchange or system of exchanges, under the control of a single manager, responsible to the growers. Salesmen from the different fruit firms would operate through the exchange.

D. Roy McNicoll, Penticton, who drew up the draft of the plan, and Albert Millar, Oliver, were other speakers who gave support to the idea of the exchange system.

The suggested warehousing plan, said Mr. Millar, "is not nearly so complete," as the present scheme proposed by the committee.

him to one vote in deciding policy. The valley would be divided into seven areas, each of which would name a director. Most vital points would be the fixing of minimum prices by the exchange.

NO TRACE FOUND OF A. J. HOBSON'S BODY

Though residents of the area have maintained a careful watch for the body of A. J. Hobson, believed drowned in Woods Lake on Friday

Provincial Police Sergeant H. V. King, of this city, made a careful search of the area on Saturday last, nine days after the accident. It was thought that the body might have become meshed with weeds at the

bottom of the lake. Should the remains not be recovered soon, charges of dynamite may be used, states Sergeant King.

Mr. Hobson, a resident of this city for the past 13 years, was drowned in the lake when his sailboat overturned.

On Wednesday police recovered floor boards of a boat and a coat said to have been worn by Mr. Hobson the day of the accident. These washed up on the shore of the lake.

SATISFIED WITH WAY FRUIT IS BEING SHIPPED KELOWNA, B.C., Nov. 30.—Balfour with the method of handling fruit from the cars to the ships at the Pacific Coast, was expressed by O. W. Hembling, Tree Fruit Board member, after his return from an inspection trip.

A FRIENDLY CHAT AMONG WOMEN By One Of Them

"You know," said the good man at 7:30 p.m. one evening, "I call it nothing short of a HUSBANDS crime to leave a warm fire and my pet chair to turn out on a night like this! I may say that the fire had nothing to do with it, or his chair either; he is just the same summer or winter. I don't know which is the worst, the husband you can't keep at home in the evening, or the one who will never consent to go out only when the most tactful and diplomatic pressure is brought to bear. I suppose there is the happy medium in husbands, but they do seem to be an unknown quantity. Either one thing or the other, so to speak."

With a great deal of grumbling and frothing about to which I turn a deaf ear and a smiling face, we do occasionally and eventually sally forth. His conversation, if any, during the time spent in reaching our destination, is confined almost exclusively to the length of time we are to stay and the time he intends to leave. All of which is completely forgotten by the time we have shed our wraps and when both outer and inner man has been warmed and cheered by our host in a way the good man really doesn't deserve. The sequel to all this is that it is always I, who at usually a very late hour, make several futile efforts to pry him loose from my neighbor's bridge table. And then you read about diplomacy! The average wife could give our statesmen and leaders of nations many a wrinkle in this art.

The other day in a crowded rendezvous frequented by women in a coast city, I was idly waiting for a friend to join me, watching meanwhile from my point of vantage the prudent shoppers making their Christmas purchases from glittering and gaily decorated booths. I was sitting on a seat which would accommodate three or four people, but it actually had only one occupant besides myself, to whom I had given only an indifferent glance as she seated herself in the corner and opened a magazine. Presently the back of the seat quivered and shook. I paid no attention, but when it occurred the second time, I involuntarily looked over to the girl who was sitting at the far end. I then noticed that she was exceptionally good-looking, groomed, and dressed in the style of the moment. But she was shaking her whole body, which shook her whole body, let me bring the seat, and was endeavoring to prevent the tears from ruining her perfectly made-up complexion—all this going on behind the magazine. Frightfully embarrassed, I turned away, and to my relief her grief seemed to wear itself out in a storm. After which she sauntered off with an air of perfect nonchalance. It has always been a source of speculation to me, the inner lives of all of us, which we so carefully hide behind the face we present to the world. This wish I am sure of some lines by Pauline Johnson, which I discovered only recently:

"If I had thought of all the eyes that weep Through desolation. If I had known how leaden was the weight, Adversity lays at my kinsman's gate, Of that great cross my next-door neighbor bears, My thanks had been more frequent in my prayers."

And how true! Something unusual always appeals, doesn't it? To be different from Mrs. Whosit or the lady across the street. SHOWER Well, when next you entertain at a shower for the girl friend, try this. It is called a "pantry shower," and consists of each guest bringing her favorite recipe with one or more of the principal ingredients. For instance, if your guest will consent to pass on her favorite recipe for salad dressing, ask her to bring along a tin of salad oil and a packet of mustard. Should it be a pumpkin pie recipe, a couple of tins of pumpkin and some spices would be in order. If others feel able to spread themselves, they can add whatever they wish from a tin of pepper to a sack of flour. Showers can sometimes be rather monotonous, and expensive as well. Here is a way in which you can give the young couple a good start, and do away with that awful thing, the first grocery bill. And so to the guests who are giving them a wedding present anyway, the odd addition to the pantry shelf does not mean much added expenditure. It is an historic fact that no nation has ever prospered who persecuted the scientist in his work. CURRENTLY according to Holy Writ, TOPICS they are God's chosen people. Germany would do well to consider this. Quite a number of you will have read A. J. Cronin's "The Citadel," and I expect wondered, as I have, how a film could be built around this novel which would have a popular appeal. It seems to have been accomplished, for I understand it is splendid. Your affectionate, Cousin Rosemary.

KELOWNA EVAPORATOR HAS NEW MACHINERY

KELOWNA, B.C., Nov. 30.—On November 29 the evaporator plant of Canadian Cannery in this city started operations and will if suitable apples can be obtained, probably continue to operate the greater part of the winter. Such was the statement made by Willis J. West, general manager of Canadian Cannery (Western) Ltd.

While the local plant is the oldest evaporator in B.C., Mr. West pointed out that this year a great deal of modern equipment had been installed, some of it being the only units of their kind in the province. The installation of this new machinery has made the plant fully modern in every respect. The duration of the run of the plant depends upon the procuring of sufficient apples of the desired type. In the opinion of Mr. West, this should be no insurmountable difficulty.

TO SEEK RE-ELECTION PENTICTON, B.C., Nov. 26.—Reeve W. G. Wilkins and Councilors J. W. Johnson and Ian Butchland, whose terms expire this year, will stand for re-election.

Wins Tweedsmuir Trophy At 13

Miss Norma Wilson, 13-year-old daughter of Norman F. Wilson and Senator Cairine Wilson, was awarded the Lord Tweedsmuir trophy in the ladies' hunter class at the Ottawa winter fair. The Governor-General presented her with the prize for the event, in which there were 15 entrants. Miss Wilson rode the Six Farm entry, Sixes Star.

MABEL LAKE COUPLE IN AUTO ACCIDENT

Mrs. Andrew Sigalek Suffers Three Broken Ribs When Auto Skids

LUMBY, B.C., Nov. 29.—Mr. and Mrs. Andrew Sigalek, of Mabel Lake, met with an accident last week, when their car skidded on ice near Shuswap Falls and overturned. Mrs. Sigalek sustained three broken ribs, necessitating medical treatment. Bell Lumber Co. shipped out 15 car loads of poles last week. General improvements are being made in the skating rink, which is being flooded now in anticipation of a good season. Hockey seems to be the main theme just now. A team is lined up, and practice at the Vernon Arena is much appreciated. Lumby has been stirred at the sad news of the death by drowning of A. J. Hobson, who, during his residence here, gave much valued service as director of the Lumby Community Club, and also as School Trustee. A brilliant scholar himself, Mr. Hobson took keen interest in educational problems. Twelve-year-old debutantes to be retired this year bear his signature. He had constructed a much needed extra school room. The infant son of Mr. and Mrs. George Finlayson was christened on Sunday at St. James' Anglican Church, with Rev. J. Brisco officiating. Mrs. Graham and two sons, George and Francis, left on Wednesday for their home with relatives near Toronto. Ward Bros. are going out of the garage business; the Ward Service Station being taken over by R. Ward, Sr., once more. Mr. and Mrs. Lawrence Ward left on Wednesday for the Coast. The possibilities of a water system for Lumby are still under discussion, a tentative survey of Vance Creek having been made. Mrs. Baird, of Flagstone, returned home on Sunday after visiting relatives here.

CANADIAN CLUB AT KELOWNA IS HEADED BY A. J. CAMERON

KELOWNA, B.C., Nov. 30.—A. J. Cameron was the unanimous selection of the Canadian Club of Kelowna to again be president for the current year, at the annual meeting of that organization held in the Royal Arms on Monday evening. The main dining room was crowded to capacity for the annual session and to hear Mrs. Madge Macbeth speak on "Bolivian Highlights." G. A. McFay was the unanimous choice as vice-president and J. F. Thompson was re-elected secretary-treasurer. The executive will consist of Ben Hoy, W. H. H. McDougall, J. Logie, Dr. J. N. Shepherd, W. E. Adams and E. O. Weddell. This slate of officers was submitted by a nominating committee headed by O. St. P. Aitken. The meeting selected the slate unanimously.

FAIKLAND'S W.M.S. HEARS PAPER READ

Program For Meeting Arranged By Mrs. F. Tarry And Mrs. J. Alexander

FAIKLAND, B.C., Nov. 28.—Members of the Woman's Missionary Society met Thursday afternoon in the United Church for their regular meeting, with Mrs. St. Laurent, president, officiating. The program was arranged by Mrs. F. Tarry and Mrs. J. Alexander.

Considerable business was attended to and an interesting article on Christian stewardship was read by the president. The financial report as given by the treasurer, Mrs. F. Tarry, was very encouraging. The Bridge Club met at the home of Mrs. J. Alexander, Wednesday evening. Highest scores were made by C. M. Parker and Miss Miriam Warren.

Norman Jessiman, of Vancouver, and Alex. Dryden, of New Westminster, officials of the Gypsum, Lime & Alabastine Co. Ltd., paid a visit to the quarries on Wednesday. Several thousand tons of rock have yet to be shipped if weather permits. Considerable business was attended to and an interesting article on Christian stewardship was read by the president. The financial report as given by the treasurer, Mrs. F. Tarry, was very encouraging. The Bridge Club met at the home of Mrs. J. Alexander, Wednesday evening. Highest scores were made by C. M. Parker and Miss Miriam Warren.

Dr. J. A. Shotton, medical health officer, paid a visit to the school, Monday, on Thursday, Nurse Mobley made an inspection of the pupils, the first of her official monthly visits. Miss N. Morley, of Kamloops, was the guest of Mr. and Mrs. E. V. Davies for several days last week, returning to her home Wednesday.

For this time of the year the roads are in fine condition, with automobiles still leaving a cloud of dust behind as they travel past. The first slight fall of snow has entirely disappeared with the warmth of sunny days. Nights are becoming much colder with heavier frost on the ground in the mornings.

HUGE SILVER-TIP IS SHOT AT REVELSTOKE

REVELSTOKE, B.C., Nov. 29.—A silver-tip grizzly was shot by Gordon Blackwell on his farm, three miles south of Revelstoke last week. It was the first time in many years that a bear of that species had ventured so close to the city. The bear was seven feet, six inches from tip to tip. For the last couple of weeks the animal had given farmers in the vicinity a merry chase and Mr. Blackwell put an end to its depredations at 3 o'clock in the morning.

1,572,186; 1935: 1,313,285; 1934: 1,436,961. Annual figures for export shipments, at commencement of the last week for November, are: 1938: 2,130,529; 1937: 1,754,556; 1936: 1,433,245; 1935: 1,841,397; 1934: 1,490,003. This year's estimated crop is 5,555,340 boxes. Figures of actual total in other years are: 5,245,023 for 1937; 4,199,443 for 1936; 5,431,857 for 1935; 4,461,151 for 1934.

BURNS & COMPANY LTD. VERNON, B. C. SHOP AT HOME THIS CHRISTMAS

DOMESTIC SALES NOT ABREAST OF LAST YEAR

Of the total domestic sales this year from B.C., the Fruit Board reports apple distribution as follows: Maritimes: 7,489 boxes; Quebec: 78,142; Ontario: 64,482; Manitoba: 293,668; Saskatchewan: 419,113; Alberta: 406,968; B.C.: 87,030. At this date last season B.C. had taken 150,891 boxes and the current total is lower than any other in the past four years. Alberta's total to date is ahead of last year's, but figures in all other areas listed are below those of the previous season.

British Columbia and Nova Scotia produce nearly all of Canada's catch of halibut but the Pacific Coast landings are much larger than those in the Atlantic provinces. The catch by British Columbia halibut fishermen last year was a little more than 117,200 hundredweights and the Nova Scotia landings totalled 31,300 hundredweights.

MACHINERY FROM HOPE-PRINCETON ROAD IS TAKEN TO MERRITT

Workmen on the Hope-Princeton trail brought out the machinery from the big road project on November 23, according to reports from Hope.

Crews have been working 25 miles from Hope through a particularly rough country known as the Skagit bluff, and have not been able to make any rapid progress through this section. It is understood, however, that practically all the remaining route is over comparatively easy territory known as Cedar Falls. It is asserted that the campaign to raise funds for the completion of the highway by private contract next year is meeting with success, and that some money has already been subscribed. The government had 20 men working on the project when it closed. The machinery will be taken to Merritt, it is understood.

SEES THOUSANDS OF U. S. VISITORS HERE WHEN ROYALTY COMES

High hopes that Their Majesties will dedicate the new Big Bend Highway, on the occasion of their trip across Canada next year, were expressed by F. H. Allwood, President of the Revelstoke Board of Trade, on the occasion of his visit here last Monday.

Discussing current features of activity in the Revelstoke area with The Vernon News, Mr. Allwood remarked that the Big Bend and its future claim major attention.

"We are all looking forward to Their Majesties' visit and we trust they will open the new highway," he said. "It would not take long, no longer than the period of time in which the train stops at the divisional point anyway. A simple ceremony could be arranged—but it would mean very much indeed."

One thing it would mean, he pointed out, would be "probably ten thousand visitors from the adjacent sections of the United States. They would certainly pour up here for an opportunity to see the King and Queen. And their coming would do a tremendous amount of good in advertising the delightful scenery we have to offer."

Hockey League

(Continued from Page 1)

tion. Fred Bennie, the likeable giant of the Derry boys, and Ken Law, will complete the team's backbone, rumor states. It should be a strong, two-fisted club as in the past.

Harry Laroche, who was with Lundy in 1937, has transferred to Salmon Arm, where he should prove a valuable addition. Salmon Arm is said not to have fully organized yet for the year.

Enderby, unless other players are found soon, will likely be the league's weakest member, but will be in fighting.

League President R. S. Gullivan, of Armstrong, told The Vernon News Wednesday morning, Kelowna would definitely not be included in the league. That centre failed to have representation at a meeting of the Vernon Arena Commission, called to discuss Kelowna's chances of using the Arena as its home base this winter. The Orchard City may, however, play exhibition games with North Okanagan squads.

No official word has been received from the Enderby club regarding its intentions. Mr. Gullivan said. He had heard privately that that city would be represented with a full team. Salmon Arm, too, has not signified its intentions, but will undoubtedly have a strong club.

Until the various league centres have good ice conditions, it will be impossible to announce the season's schedule. An executive meeting to discuss this question will be called. Mr. Gullivan said. "We can't do much without ice."

St. Andrew's

(Continued from Page 1)

John White's inimitable fashion when he gave a reading of "Erichie Goes to A Bazaar," by Neil Munro. This amusing reading dealt with Erchie's winning of "a wee smoot" of a thing they ca' a Shetland shawl powney."

Only a Scotsman born and bred could have recited Erchie's account of his trip to a bazaar where he apparently got a Shetland pony which he did not want. Erchie's complaint, as given by Mr. White, ran something like this at one juncture. It suggests the atmosphere:

"There wad be nae such things as bazars if there were nae weemen. In thousands o' weeldaein' hames in this Christian toon o' Gleska there's weemen at this very meenute neglectin' their men's suppers to sit doon and think 'o hard as they can whilt they can mak wi' a cut and a half o' three-ply fingerin' worsted, that'll no be ony use to onybody, but'll look worth eight-eence in a bazaar. If ye miss your lum hat, and canna find it to gang to a funeral, ye may be shair it was cut in scollaps a'round the rim, and covered wi' velvet, and that wee Jeanie pented' floors on't in her ain time to gie't the richt feenish for bein' an Art work-basket at yer wife's stall in some bazaar."

A GLANCE BACK

An interested visitor at the entertainment was Mrs. M. Duncan, who had also attended the St. Andrew's Society fifth annual dinner in 1909. Judging by the program of that occasion 29 years ago that Mrs. Duncan carried with her, the affair was an elaborate one.

The menu included soup, fish, entrees, haggis, roasts, venison, pig's huddies, salads, and many kinds of desserts. "wi' a wee drap o' the Auld Kirk to wash a' doon."

Toasts were given and responded to at that time by: W. G. McKenzie, Dr. Duncan, Mr. Carswell, A. Leishman, J. A. McKelvie, J. T. Reid, A. Bridgeman.

HEART FAILURE CAUSES DEATH OF PIONEER MAN

KELOWNA, B. C., Nov. 30.—Heart failure was the cause of the death on Saturday evening of Frederick Taylor Whitehead, 75, an old-time pioneer of the Okanagan who came to the Rutland area 34 years ago.

For nine years he was on a property in the Rutland district before returning to Kelowna. He came back to Canada and resided in Nova Scotia for a while, but the call of the Okanagan was too great and the late Mr. Whitehead came west once more and settled in Kelowna in 1919. He had been here ever since up to the time of his death on Saturday.

Besides his wife he leaves one daughter, Mrs. D. Leckie. Another daughter, Mrs. John Porter, predeceased him.

GOOD CATCHES TAKEN IN OKANAGAN LAKE

For some residents of this city and district fishing in Okanagan Lake these cheerless chilly days has proved profitable; for others the reverse has obtained.

Capt. E. N. Senior and Tony Ollerhead, both of Okanagan Landing, this week were reported to have caught fine trout. The former landed a ten pounder as his biggest catch and Tony, as he is known, hooked fish weighing eight pounds, two of seven and a half pounds, and others smaller but satisfactory for table duty.

Other ardent anglers braving the chilly waters and gusty blasts of the main lake had only much fresh air and wind-beaten cheeks to take home to the waiting frying pan.

Town and District

Mrs. M. Phillips, of Falkland, spent Monday visiting her two daughters here.

Miss Marion Wilmot, of Revelstoke, spent Tuesday afternoon visiting here with her mother, Mrs. F. H. Wilmot.

Mrs. J. T. Fowle returned to her home in Coldstream on Monday after several days spent visiting at the Coast.

Mrs. J. E. P. Henniker returned to this city on Thursday of last week after a time spent visiting at the Coast.

Mr. and Mrs. J. U. Gellatly, of Westbank, were visitors in this city over the week end, guests of Mr. and Mrs. I. Hurlburt. Mr. Gellatly returned to Westbank on Monday, but Mrs. Gellatly will be continuing her visit here for some time.

Miss Norma Finlayson, of Okanagan Landing, with her cousin, Miss Audrey Finlayson, who is attending High School here, spent the week end visiting at the home of the latter's parents, Mr. and Mrs. E. R. Finlayson, of Sicamous.

Mr. and Mrs. J. A. Bishop, of Coldstream, plan to leave next Monday for the Coast where they will reside during the next two months. Before continuing on to Victoria, their final destination, they will remain in Vancouver for a two weeks' visit.

Mrs. A. L. McDougall, of Glendale, California, who has been spending the last two months visiting her parents, Mr. and Mrs. Con Finn, of this city, left on Monday evening for Toronto, where she will join her husband who is at the present time in Eastern Canada.

Mr. and Mrs. Hugh Renfrew and their family left by motor on Monday for Edmonton, Alberta, where they plan to make their home in the future. They came to this city to reside a little more than a year ago when Mr. Renfrew, traveller for the National Biscuit Co. Ltd., was transferred to the interior.

Miss Marjorie Lowe left on Wednesday afternoon for Kamloops, where she will join the staff of the Investors Syndicate district office which was recently transferred to that centre. Miss Lowe is well known to a wide circle of friends here and it is with regret that they have learned of her departure.

H. A. Daggett, of the firm of Duthie & Co. Inc., Portland, Oregon, has been a business visitor here this week while on one of his periodical trips to this city. His business here has been in connection with the present conditions of the fruit export trade which his firm handles in part for the Associated Growers Ltd.

Discussion of rate of payment to the Civic Arena Commission for use of the range was the principal item of discussion at a meeting of the Vernon Rifle Club on Friday evening of last week. Shooting will commence after these details have been settled. Each member of the club is to secure four other shooters and teams of five will then enter competitions.

The students of the Vernon High School are at present engaged in an intensive search for old paper. The drive began when a local firm offered to buy scrap paper from them at so much a ton. An inter-class competition was organized and at the end of the first week, last Friday, 2,600 pounds had been collected. The proceeds are to be used for the purchase of sports equipment.

Since it opened more than two weeks ago the Vernon Civic Arena has attracted skaters from all parts of the surrounding district. Now the lure of freezing temperatures is also drawing those who are fond of outdoor skating to the many ponds on the Commonage and Indian Reserve with one rapidly becoming frozen over. On Sunday large crowds of skaters were to be found on the ever popular Birnie's pond as well as on others in that area and on the reserve.

Several Vernon Oddfellows travelled to Kamloops on Wednesday evening of last week to hear an address by George I. Brelo, of Kentucky, who spoke to a gathering of Oddfellows, Rebekahs, and friends. The occasion was an open regional meeting of the I.O.O.F. and Mr. Brelo, special deputy of the Grand Sire of the Order, is on a speaking tour of Canada. Among those attending from Vernon were: W. McManis, H. Woods, W. Allan, R. White, G. Belsay, A. Downey, R. Edmonds, and J. A. Henderson.

The 1st British Columbia Dragoons held their annual banquet, and dance in Kelowna on Thursday of last week. Among those in attendance from this city and district were Major and Mrs. Claude Husband, Major and Mrs. Laurence Macdonell, Capt. and Mrs. A. E. Henry, Capt. and Mrs. E. Cullen, Lieut. H. W. Calhoun, Lieut. G. Corbould, Lieut. Carrol O'Keefe and his guests, Mr. and Mrs. P. G. Saunders, Mr. and Mrs. A. Fleming, Dr. and Mrs. W. A. Rutledge, Mr. and Mrs. E. L. Hodgson, Mr. and Mrs. D. Kinloch, Miss Gladys Daulton, Miss Sheila Simmons, Miss Virginia Simmons, Miss A. Langstaff, Miss Norma French, Miss Isabelle Oliver, Miss Janet Drummond, A. J. Ellison, T. O'Keefe, and E. Locke.

With the school closing date of the Fall term set for December 10, students of the Vernon High and Elementary Schools face the pleasant prospect of almost three weeks' Christmas holiday this year. To mark the end of the term the annual High School concert is to be held on December 15. The two plays which are to be presented at the Drama Festival, which by the Vernon School Orchestra and by the school choir, and a gymnastic display by the pupils of the Physical Education classes will make up the evening's program. On the following night, Friday, December 16, the High School dance, probably the most anticipated event of the year, will herald the holidays.

DR. W. A. RUTLEDGE
DENTIST
Smith Block Phone 343

Mrs. M. Osland returned to her home in Hedley on Monday after a holiday visit spent here as the guest of Mr. and Mrs. John Peters.

Corporal J. A. J. Illington, of R.C.M. Police, was a visitor on Thursday of last week to Penticton, where he was formerly stationed.

Mrs. V. Hamilton, of Vancouver, returned to her home at the Coast on Monday after a short visit spent here at the home of Mr. and Mrs. Bud Mattock.

Miss Ivy Winter left by train on Wednesday evening for the Coast where she is to join the head office staff of the West Canadian Hydro Electric Corporation in Vancouver. Her absence will be greatly felt by a wide circle of friends in this city.

L. G. Taylor, district manager of the Investors Syndicate, and Mrs. Taylor, left on Wednesday afternoon for Kamloops to which centre the company's office has been transferred. Mr. and Mrs. Taylor came to this city three weeks ago from Vancouver and resided here until their departure.

Miss Coleena Corbett, of Lethbridge, Alberta, arrived in this city on Friday of last week to spend a holiday visit here at the home of her parents, Mr. and Mrs. Alex. Corbett. Miss Corbett, who is a nurse at the hospital in Lethbridge, plans to return to the prairies on Friday.

While on a missionary lecture tour through the Okanagan, the Rev. Dr. Orville E. Daniel will spend a short visit in this city on Monday, and he will address a meeting in the First Baptist Church in the evening. Dr. Daniel is making this tour while on his first furlough from his missionary field in India. Before starting his work in India he was the assistant pastor of the First Baptist Church in Vancouver.

Four large bales of excellent clothing were shipped from this city to the drought stricken areas on the prairies last week by the Women's Missionary Society of the Vernon Church. Several weeks had been spent in collecting the clothing which is sent at about this time every year by the organization. It is understood that the collection of old clothing for distribution in needy areas is to be continued.

At the Friday night meeting of the 2nd Vernon Troop of Boy Scouts, the cup for most perfect patrol in the troop was awarded to the Kangaroo Patrol under Patrol Leader Kenneth Burnett. In the 1st Vernon Troop keen rivalry is being shown between the various patrols and individual Scouts who are approaching the end of a similar contest. To spur the boys on to greater activity is the prospect of a possible rally at the time of the King's and Queen's visit next summer.

Mr. and Mrs. Basil A. Bradley, of this city, have received word that their son, Owen Bradley, having passed his examinations with an average of 90 percent, has been chosen for duty on H.M.S. "Cerberus," the largest carrier in the world. This huge ship is visiting every British port during the next two and one half years, delivering airplanes and supplies, and comes to Portsmouth every three months. Mr. Bradley, a member of the Royal Airforce, is at present assigned to duty in the workshop.

Sixty persons attended the I.O.O.F. winter drive and dance on Tuesday evening. Although the attendance was not as large as had been hoped, in every other way the evening's entertainment proved to be very successful. Mrs. S. P. Seymour won the ladies' prize for the high score in the Royal Canadian Mounted Police. The prizes in this case will be turkeys and chickens.

Word was received here this week that Bob Weatherill, a well known local youth who left this city two years ago to join the Royal Air Force in England, was recently injured in an aeroplane crash. He and a companion were flying at an altitude of about 3,000 feet when the plane went out of control and crashed while travelling at a speed of 200 miles an hour. Neither of the two occupants of the machine was seriously hurt, however, according to the letter received by the youth's parents, Mr. and Mrs. H. O. Weatherill, of this city.

The Parish Hall was the scene of an enjoyable evening's entertainment on Tuesday when thirty members of the Anglican Young People's Society, a new organization, "Bohemian Night" to mark the beginning of a forthcoming membership drive. The hall was decorated with all the trimmings for such an event, with candles in bottles supplying the light and with all those in attendance dressed in many unusual and grotesque styles. This meeting was to be the first of a number of similar ones during the winter season.

Since its opening a few weeks ago electricians have been working at the Capitol Theatre installing the new electrical fixtures and directional signs in the foyer. According to Walter Bennett, manager of the theatre, these signs are absolutely modern and no other theatre in the province has them. Besides these additions the seating plan has been partially rearranged in order to guarantee a better view of the screen from the back of the auditorium. The electricians will complete their work this week with the installation of an emergency lighting system to be used in case of power failure.

There was a large attendance last Thursday night when the annual Kinsmen Ladies' Night was held in the form of a banquet in the Chateau Cafe, followed by a dance in the Burns' Hall. The enjoyable affair was hosted by the Kinsmen W. D. McTaggart. A program of toasts and entertainment featured the banquet, in which several novel items were introduced, and the dancing to "Doo" Ferguson's orchestra continued until a late hour. At the time of the appearance of a number of the Kinsmen in startling regalia, who gave their own version of the popular Lambeth Walk, was the high-light performance.

BISHOP OF KOOTENAY PLEADS FOR GUIDANCE OF YOUTH OF TODAY

St. Mary's Church, Oyma, Scene Of Beautiful Confirmation Service

OYAMA, B.C., Nov. 29.—The Rt. Rev. W. R. Adams, Bishop of Kootenay, conducted a beautiful confirmation service at St. Mary's Anglican Church on Sunday, November 27. The church was filled to capacity, many friends coming from Winfield and Okanagan Centre.

Bishop Adams first addressed the congregation, and asked for their hearty prayers for the youth about to be confirmed. "We are living in anxious times," he said, "and the young people need wise guidance to enable them to grapple with the difficult problems before them."

Addressing the candidates, he compared the kingdoms of the earth with the Kingdom of Heaven. Builders of earthly kingdoms were concerned with the education, safety, and business interests of their citizens. God, the ruler of the Heavenly Kingdom, was concerned with the building of the character of each individual. Sometimes the duty to one's country comes into conflict with the duty to God, in that case, the duty to God must come first.

It was difficult to learn the language of a foreign country, and so prayer, being the language of the Heavenly Kingdom, was only learned by constant experiment and practice.

The Vicar, Rev. C. S. Wright, and Rev. A. Despard assisted with the ceremony that followed. Candidates were: Margaret Getty, Barbara Gray, Mary MacLaren, Madge Tucker, Patricia Pollard, Leslie Draper, Bob Coe, Bernard Gray, Malcolm Dewar, Bob Potchary, Bill Tucker, Arthur Pollard, and John Stephen. Bishop Adams concluded the service with a verse from the 48th Psalm—"For this God is our God forever and ever; He will be our guide even to death."

A bridge drive and dance, sponsored by the hockey club, will be held at the Community Hall, December 2.

The annual meeting of the W.I. will be held on December 14 at 2:30 o'clock.

NEWLY MARRIED COUPLE RESIDE IN KELOWNA

KELOWNA, B.C., Nov. 30.—At St. Mary's Anglican Church, Kerrisdale, Vancouver, on Saturday, November 19, at 2 p.m., a quiet wedding was solemnized by Rev. James H. Craig, when Constant Edith, only daughter of Mr. and Mrs. Herbert T. Wright, of Saanichton, V.I., became the bride of William Henry, eldest son of Mr. and Mrs. E. L. Cross, of Kelowna.

The bride was unattended while the groom was supported by his cousin, Donald McDonald, of Vancouver. Only a few immediate relatives and friends were in attendance.

A reception was held following the ceremony at the home of Mr. and Mrs. J. M. Robbins, 1988 West 35th, Vancouver.

The young couple have returned to Kelowna and are residing at the Borden Apartments, Ethel street.

NO TYPHOID ALARM

Rumors current in this city that there were several typhoid cases here are without foundation. At present in the Jubilee Hospital there are two men ill with typhoid who have been sick for several weeks and who are reported recovering steadily. These are the only cases.

M. J. Brennan and his daughter, Miss Patsy Brennan, of Sicamous, spent Wednesday visiting friends in this city.

C. P. McIntosh and his son, I. A. McIntosh, of Calgary, have been business visitors in this city during the past week.

After several days spent visiting in Seattle and Wenatchee, Mrs. E. C. Pegler and Mrs. Jack Williamson returned to this city on Tuesday.

After two weeks spent visiting in Salmon Arm at the home of her daughter, Mrs. E. Max Ladner, Mrs. A. A. Monk is expected to return to this city at the end of the week.

ENDERBY COUNCIL IS UNFAVORABLE TO TOLL ON FRASER HIGHWAY

ENDERBY, B.C., Nov. 29.—At the last meeting of the city council a letter was received from the Vancouver Tourist Association enclosing a memorandum in regard to the Fraser Canyon highway toll and its alleged adverse effects upon trade of the province. The Council decided strongly to endorse the representation made in this memorandum. It was also decided during the meeting to have a city engineer revise the map of the city and bring it up to date.

A number of young people of the United Church Society motored to Armstrong on Thursday evening to attend a young people's meeting in the United Church. The Enderby society provided the program during the evening and the Armstrong society the refreshments.

Mrs. George Andrews was a visitor to Salmon Arm on Friday evening.

George Duncan, who has been enjoying a hunting trip at Mabel Lake for a few days, returned home this week.

BOLIVIA

(Continued from Page 1)

Each was elected for a four-year term, so you see that life politically speaking was not monotonous.

Mrs. Macbeth landed at the port of Mollendo in Peru. She walked down a rope ladder from the ship's side to a float and then into a small boat. When the boat drew near the shore, she was met by a group of men, but suddenly from high overhead appeared a chair lowered by ropes and it was in this means of conveyance that she landed.

To cross to Bolivia a train that climbed 15,000 feet over the Andes was taken. The best accommodation in the coaches was worse than the poorest in Canada, she declared, but the roadbed itself was a marvel of engineering triumph. There was not one "switchback" and but few bridges. For every 600 feet the train ascended, the temperature dropped one degree. "In eight hours you could go from the tropics to sub-arctic," she said.

Bolivia justly claims many of the "highest" things in the world. It has, for example, the highest navigable lake, the highest 18-hole golf course.

A most interesting part of Mrs. Macbeth's address was her description of the Incas, the ruling native people of Peru and Bolivia until overthrown by the Spaniards. Pictures of that civilization's ruins she showed were exceptionally good.

A vote of thanks to the speaker was proposed by Mrs. W. C. Ricardo.

HOUSES BROKEN INTO
PENTICTON, B.C., Nov. 26.—Two minor breaking and entering cases were reported to B.C. police here on Friday. In one of these the Skaha Lake cottage owned by R. J. McDougall was entered, and in the other an empty house on Government Street was broken into. It is reported that nothing was taken from the McDougall home. F. O. DeMawdsley, agent for the property on Government Street, which is owned by H. Mauser, reported that some minor house fixtures were taken.

FORM ART CLUB

KELOWNA, B.C., Nov. 30.—At the home of Mrs. E. A. Willis, on Monday evening a small group took first steps to form a Kelowna Art club, with the object in view of sponsoring art work in Kelowna, and to include sketching, drawing, and painting. Another meeting, at which officers will be elected and further details arranged, has been called for Tuesday, December 6. The temporary secretary is Terence Bennett.

OBJECTIVE IS \$500 FOR ELKS AT OLIVER

OLIVER, B.C., Nov. 26.—A Christmas cheer fund with an objective of \$500 was launched this week by the Oliver Elks Lodge. To start the subscription campaign the Elks Lodge gave a donation of \$100. Contributions of clothing and food will also be accepted, and the committee in charge of the Christmas welfare work are determined that no family shall be forgotten this Christmas.

Pledges "Active Furtherance of Peace"

Guardsmen in bearskins and greatcoats stood with fixed bayonets to line the route from Buckingham Palace to the House of Parliament when the King and Queen drove in a gilded coach to the opening of parliament. There the King formally announced that invitations for a royal visit to Canada and the United States had been gratefully accepted, and declared that his government was working for peace in Europe and would be glad to intercede in the "dispute" between Japan and China.

Hockey Set-Up - - -

(Continued from Page 1)

use of the Vernon Arena as home grounds for the Kelowna club. Kelowna, providing such arrangements could be made, would be prepared to travel to this city and to all other centres in the league.

Business men in this city are behind the club, he claimed, and if a team could be operated in the league "within two years we would have artificial ice."

General opinion of delegates was that nothing could be accomplished until it was known definitely whether Kelowna could obtain use of the Arena. It was pointed out that this city would have double the number of games of any other centre under this arrangement. Would this adversely affect local gates? Delegates pondered.

No delegates were on hand from Enderby. T. H. Middleton, of Salmon Arm, said that Enderby was intending to enter the league and was selling "booster" tickets. Len Wood, of Armstrong, was of the opinion that Enderby would not be able to operate. It was left to the executive to ascertain that centre's position.

With no definite word as to either Kelowna's or Enderby's plans for the coming year, it would appear that some weeks must elapse before any concrete set-up will emerge.

Playoffs were the subject of a brief discussion. Len Wood, of Armstrong, who attended the annual B.C.A.H.A. meeting recently in Grand Forks, said that if the Coast did not turn Intermediate this year playoffs would probably come to Vernon. Otherwise they will be in New Westminster's new arena.

E. G. Sherwood, of Vernon, reported that the Coast is "still talking and playing senior hockey."

From last year's semi-finals in Vernon, the B.C.A.H.A. realized close to \$2,000, Mr. Wood said. After all expenses of visiting teams were paid, a profit of \$300 was left with the association, the first profit ever to be realized from Intermediate hockey. A Bridge River team bid a guarantee of \$1,000 for right to stage the playoffs, a sum considerably less than obtained from this city.

The B.C.A.H.A. received from the Canadian Hockey Association \$500 for promotion of "minor" hockey leagues in this province, one delegate reported. Decision was that the association should foster minor leagues in the valley, especially midge under 16 years, and juvenile, under 18. Any centres intending to compete must notify the league secretary, Wellington Smith, of Armstrong.

Larry Carscadden, of Kelowna, during the discussion on referees, strongly urged that a committee be set up to advise the league executive on this question. He could not secure a seconder for his motion and finally withdrew it. T. W. Hayland, of J. H. Watkins, Armstrong, Len Wood and Bert Fletcher, Salmon Arm, T. H. Middleton, and B. Bly, Kelowna, Larry Carscadden and H. B. Simpson.

At the meeting as official delegates were: Lumbly, "Chickie" Christian and Ken Law, Vernon; T. W. Hayland and J. H. Watkins, Armstrong; Len Wood and Bert Fletcher, Salmon Arm; T. H. Middleton, and B. Bly, Kelowna; Larry Carscadden and H. B. Simpson.

MIDGELS, BANTAMS
Formation of "Midge" and "Bantam" hockey leagues in the North Okanagan was accomplished at a meeting held in Enderby on Thursday evening of last week and attended by delegates from Vernon, Armstrong, Enderby, Salmon Arm, and Slocan-Canoos.

Separate officers for each class were named and a start has thus been made towards formation of real competition for these younger or organized players.

The purpose of the meeting was to form an organization to promote and to control "Bantam" or "Pee Wee" competition, for boys 14 and under. R. Kappel, of Slocan-Canoos, was named president and secretary of the league. Executive members representing their districts are: Vernon, Harry A. Grant; Armstrong, John Innes; Enderby, Charlie Horrex; Salmon Arm, R. Morlan; Slocan-Canoos, Stan Cinth, Canoos.

It is believed that play in this league, a boy must be attending school in the community for which he plays. Satisfactory certificates of age, school attendance, date of birth must be filed with the secretary.

Fortnight or so, and several deer have been obtained. The record "head" taken from around the lake, some few years ago, may be seen mounted at M. Elmer's home, on the road to and three miles from the lake. It was killed by Eggon Elmer, now in Vancouver.

Each member of the executive must send to the president a playing schedule of senior teams in his district, and the president will then draw up a "Bantam" schedule. Where possible Saturday and Sunday games will be played.

William Lader, of the Vernon Elementary Schools staff, will assist Mr. Grant in management of the local "Bantams." In this city it is planned to stage games prior to Intermediate contests if this can be done. "Booster" certificates will be sold by the boys here to raise funds.

F. Kappel, of Slocan-Canoos, will donate a cup for competition. Vernon, Armstrong, and Enderby delegates expressed a wish to form a Midge League, which may possibly include Salmon Arm and Lumbly.

Fred Smith, of Vernon, was named president of this organization, with an executive consisting of Harry Grant, Vernon; John Hassard, Armstrong; and M. Gervy, Enderby.

The Bruhn Cup, formerly for main line competition, has been secured as a league trophy, while the winner may compete in the provincial championships for the Cromie Memorial Cup.

PERFECT SCORE WINS IN BADMINTON PLAY

Miss E. Hawkins, J. Freeman
Take Honors In Enderby Tournament

ENDERBY, B.C., Nov. 28.—A most enjoyable American tournament was held at the local R.M.R. Badminton Club on Friday evening. There were 30 members playing during the evening, and because of the well balanced drawing by the committee some very enjoyable and evenly matched games were played. Following the match, tea was served in the club room.

The players were divided into two sections and the winners during the evening were Miss Evelyn Hawkins and J. Freeman, who had a perfect score. Mrs. E. McMahon and R. Johnson and Mrs. R. Harris and J. Muir tied as runners-up, with McMahon and R. Johnson winning the latter by a score of 13 to 3.

Mrs. W. Anderson is making preparations to close her home and leave for New Denver, where she will spend the winter visiting with her brother.

W. H. Magee, of Grindrod, was a business visitor to Enderby on Saturday this week.

The Christmas bazaar, which was held by the Ladies' Aid of St. Andrew's United Church on Saturday afternoon, proved most successful. This year for the first time the bazaar was held in the old Enderby Hotel on Cliff Street, and the interior of the building had been beautifully decorated with Christmas trees, and red and green streamers, giving a festive air.

The sum of \$85 was realized from the sale during the afternoon, with \$12 being noted from the tea tables.

Mrs. L. Lantz and Mrs. C. Hawkins took charge of the fancy work table, Mrs. W. Panten the novelty stall, Mrs. A. Green and Mrs. J. Wood the tea table, Mrs. L. MacKay and Mrs. A. O. Blackburn the candy stall, Mrs. A. Bush and Mrs. J. Miller the home cooking stall.

Mrs. A. Campbell will leave shortly for Vernon, where she will visit for some time with her daughter, Mrs. Ann.

Mr. and Mrs. R. Harris, accompanied by A. B. Greig, manager of the local Bank of Montreal branch, left early Saturday afternoon for Kelowna, where they visited over the week-end.

Mr. and Mrs. Harris visited at the home of Mrs. Harris' parents, Mr. and Mrs. Russell.

Dr. and Mrs. R. Hansen were visitors at Salmon Arm on Thursday evening at the home of Dr. and Mrs. H. A. B. Bly.

Mrs. D. Barnes, of Grindrod, in the Enderby General Hospital on Monday, November 28.

Miss Joan Keith is saying farewell to her many Enderby friends before leaving on a short time for New York, where she will join her aunt and accompany her on a year's world cruise, beginning in January.

Mrs. Arthur Plamondon, who has been a patient in the Enderby General Hospital for some time, left for her home on Tuesday.

Correspondence

Capital Expenditure

Editor The Vernon News, Sir:
For over 30 years I have followed with much interest the work of the City Council as related in the columns of The Vernon News. I crave no publicity, but would ask a little space from you to congratulate Mayor Bowman and Aldermen A. R. Smith and C. J. Hurt on their policy of sound money for Vernon.

We lived through one epidemic of over-borrowing; deliver us from another, that witnessed when the day of reckoning arrived such sorry pictures as old men borrowing their tax-money from sharks, who charged them 10 percent interest compounded quarterly; good citizens pawning jewelry; and rate-payers who asked payment of their little accounts at the City Hall were were firmly but politely informed the bank forbade any further cheques for the time being.

In Britain the imperial government sanctions all municipal borrowing and no civic body can float loans without first satisfying the authorities that the money is needed for essentials, and not one municipal corporation has been known to default on its obligations. A great pity indeed the federal governments of America had not the vision to enact such a law, and we would not then read in the current press of cities like Vancouver, Seattle, Winnipeg, and many others carpet-bagging around the lobbies of their parliament for a date to pay their teacher's salary.

Personally, I much admire Alderman Clarke's zeal in the matter of better street lighting and if the majority of the citizens petition for more lighting I am for it 100 percent. I would pay for it from current revenue. One hundred and eighty people signed the request for more lights. Do not be surprised if ten times that number petition for some decent drinking water to slake their thirst in the summer months; and that problem may sufficiently strain the corporate credit. Alderman Clarke tells us that the majority of experts are strong on capital expenditure. "Quite true, they are, and their advice being followed is the best for the city."

South American sales are up by a total of 63,854 as compared with 46,459 in 1937; 46,195 in 1936; and 26,729 in 1935.

United States sales this year have been 8,919 boxes, which is considerably more than the 2,250 figure of last year; but less than the 10,573 mark established at this date in 1936.

So far this year 1,327,793 boxes have gone via the Atlantic route overseas, and 793,617 by Pacific.

Violent robbery is reported in South Princeton.

Penitence, B.C., Nov. 30.—Quick work on the part of provincial police resulted in the apprehension of a suspect in a case of robbery and violence in Princeton recently. The crime was committed on Thursday afternoon, and the suspect arrested only a few hours later.

According to information made at the time, Percy Russell of Princeton, returned to his store at approximately 5:50 on Thursday afternoon, to attend to some minor details in the department store.

On entering, he heard someone tapping his back, and proceeded to investigate. In the darkness room he was violently attacked, and bent on the head with a blunt instrument, until he lost consciousness.

It is alleged that his assailment then took the sum of \$600 from the cash register, and the suspect was then released.

It is stated that having taken the money, the assailant casually walked out of the front of the store and disappeared. However, at 10:30 that night two people whose names are given as Mr. and Mrs. Gordon McKenzie, of Vancouver, were arrested by provincial police, the arrest being made on charges of robbery with violence. It is reported that the suspected man has a considerable criminal record in this province.

Your paper the space for the publication of this letter.

I am, yours truly,
Okanagan Landing. A. GORRIS.

Great Britain Has Bought Nearly Two Million Boxes Apples

Sales To South Africa, South America, And Other Areas Also Advance

Cartel records in the B.C. Fruit Export, showing distribution of the export sales up to November 19, reveal 1,819,566 boxes sent to Great Britain. As at the same date in other years the total was 1,665,182 for 1937; 1,298,447 for 1936; 1,742,918 for 1935.

Sales are also greater to South Africa, the preceding three-year figures being, in order, 4,710; 3,620; and 4,020.

United States sales this year have been 8,919 boxes, which is considerably more than the 2,250 figure of last year; but less than the 10,573 mark established at this date in 1936.

So far this year 1,327,793 boxes have gone via the Atlantic route overseas, and 793,617 by Pacific.

Violent Robbery Is Reported In South Princeton

Penitence, B.C., Nov. 30.—Quick work on the part of provincial police resulted in the apprehension of a suspect in a case of robbery and violence in Princeton recently. The crime was committed on Thursday afternoon, and the suspect arrested only a few hours later.

According to information made at the time, Percy Russell of Princeton, returned to his store at approximately 5:50 on Thursday afternoon, to attend to some minor details in the department store.

On entering, he heard someone tapping his back, and proceeded to investigate. In the darkness room he was violently attacked, and bent on the head with a blunt instrument, until he lost consciousness.

It is alleged that his assailment then took the sum of \$600 from the cash register, and the suspect was then released.

It is stated that having taken the money, the assailant casually walked out of the front of the store and disappeared. However, at 10:30 that night two people whose names are given as Mr. and Mrs. Gordon McKenzie, of Vancouver, were arrested by provincial police, the arrest being made on charges of robbery with violence. It is reported that the suspected man has a considerable criminal record in this province.

MISS FREDA PARKER, E. B. ROBERTSON ARE UNITED IN MARRIAGE

MARA, B.C., Nov. 28.—The home of Mr. and Mrs. T. H. Parker was the scene of a very pretty wedding on Saturday evening at 7 o'clock, when the Rev. Maurice E. West, of Canoe, united in marriage, Freda Parker and Edward B. Robertson. The bride is the youngest daughter of Mr. and Mrs. Tom Parker, and the groom the eldest son of Mr. and Mrs. E. A. Robertson, both families of Mara.

Miss Parker was given in marriage by her father, and attended by her sister, Miss Leone Parker, and Miss Lillian Robertson, as bridesmaids. Richard Massey, of Vernon, acted as best man.

For her wedding the bride wore a gown of white crepe black silk cut on Princess lines with the sleeve and yoke set in silk lace. Her coronet of white orange blossoms held her full length veil of bridal net, and she carried a bouquet of white chrysanthemums with satin streamers.

A reception followed for immediate members of the family, after which a dance was given in Mara Hall, to upwards of 175 people of Mara and friends from outside points who attended. During the supper hour, a presentation of a dining room suite was made to the bride and groom by men friends of the groom.

This wedding is all the more interesting to many, in that the groom's parents, Mr. and Mrs. E. A. Robertson, were also married in Mara, 25 years ago, and many who attended on Saturday evening, had also attended the wedding dance of the parents.

The young couple will reside in Mara.

CLIVE BROOK RETURNS IN BRITISH PICTURE

Apart from marking the return of Clive Brook, "Action For Planes" Victor Saville's new film which comes to the Capitol Theatre on Wednesday and Thursday, December 7 and 8, is notable for the all-round excellence of its cast.

Each part from stars downwards is played by a "name." Opposite Brook there in Ann Todd, one of the most capable of Britain's younger players. The "vamp" is played by Margaretta Scott, strikingly beautiful and the British screen's premiere "menace."

Then there are Arthur Margatton, Ronald Squire and Percy Marston each with a distinguished stage and screen record.

"Action For Planes" is a London Film, produced by Alexander Korda and Victor Saville at the Denham studios. As a second feature on the same bill is the picture "Back In Circulation," starring Joan Blondell and Pat O'Brien.

V.I.D. To Vote On Preferential Area

December 17 Set As Date When Electors Will Give Their Opinion On Issue

Warm Debate Held At General Meeting -- Conflict Of Views Is Expressed By Speakers

Electors of the Vernon Irrigation District are to vote on a plebiscite as to whether or not the preferential area should be done away with altogether.

This vote, first suggested at the general meeting held in the Vernon Fruit Union Hall on Thursday afternoon of last week, was definitely decided upon at a subsequent meeting of the trustees, held on Friday.

A ballot date, set originally at December 3, has been repealed, and a new date for December 17 set.

On the new ballot the first question asked will be, "Do you favor the preferential area being changed from what it is at present to that shown colored green on Plan Y?" Then the question will be asked, "Do you favor the preferential area being done away with?"

As far as this latter question is concerned, the vote will be divided. A separate vote will be taken, restricted to electors in the preferential area alone. The other vote on the same question will be open to all district electors.

In this way, the trustees feel, the most accurate knowledge of the district's wishes may be obtained.

TO SEND WATER BOARD RESULTS

The actual decision of the vote, of course, need not necessarily determine what the future action will be regarding the preferential area. The result of the ballot will be passed on to the Water Board.

It was the original intention to have a plebiscite regarding the administration of the preferential area. The question was whether the area should be as at present, that is, constituting all acreage served by Coldstream Creek, or a more restricted area which is shown on a certain green-colored portion of Plan Y. The trustees, moreover, wished this plan definitely identified by the users. Such a plebiscite was to be taken on December 3, and for the purpose of preliminary discussion, a meeting was called for Thursday afternoon of last week.

At this meeting last week the subject of doing away entirely with the preferential area was raised by certain of the electors, and a resolution was adopted, leaving it to the discretion of the trustees, as to whether that question should be included on the plebiscite.

LEGUE IN CHAIR

At the commencement of the meeting, Trustee P. V. LeGuen was appointed to the chair, and Mrs. Gordon Baillie was named secretary. Trustee LeGuen explained that he was acting in the unavoidable absence of Trustee W. H. Baumbrough, Chairman of the Board. He further pointed out that he would act alone as representative of the Board, being the only Trustee then present who was not affected closely by the preferential area.

"If any member of the Board speaks this afternoon, it will be for himself personally, and not as a Trustee," he then proceeded to review the situation as it stands today. "Last year the Trustees, having received legal opinion from the District Solicitor and the Water Board that the regulations as applied to the preferential area were contrary to the Letters Patent, decided to extend that preferential area to all lands served from Coldstream Creek, instead of only to those lands served from the same creek at the time of the incorporation. Certain water users objected to this change, and passed at the last general meeting a resolution asking the trustees to request that the Letters Patent be altered, and sent a petition to the Minister of Lands requesting that change. The Minister of Lands then in turn asked the trustees for their own opinion on this matter."

Trustee LeGuen then referred to a letter which had been written to the committee of users who had been active in requesting the change.

These lands may bring against the district if the Letters Patent are altered.

The reply dated July 4 from the committee was briefly to the effect that its work might have been considered completed at the passage of the resolution at the general meeting, and that any further action on its part might be considered unnecessary.

On July 18 the district wrote to the Minister of Lands. This letter pointed out the resolution that had been passed at the general meeting which reads:

"That this meeting of Electors of the Vernon Irrigation District requests the Trustees to effect the alteration of the Letters Patent to agree with the interpretation of the Trustees sitting with the representatives of the Water Board and members of the organization committee in 1923, on this question in connection with what lands have the preference in the Coldstream area."

QUESTIONS NOT ANSWERED

The minister was informed that a letter had been sent to the chairman of the committee, Major Cuffie. "And no reply has been received to the questions asked in such letter."

"In 1923 certain lands," stated the July 18 letter to Victoria, "were deemed to be included in the preferential area. In 1926 and 1927 other lands were added by resolution of the then Trustees."

"The present trustees were advised by the district's solicitor and the Water Board that the area within the preferential area is really that served by Coldstream Creek ditches, that is, the area may change from time to time. It has been administered in this way since obtaining this advice."

"Since this matter has been altered the Trustees have announced that the water tolls for the residue of the district, that is, other than the preferential area, shall be double those of the preferential area. This is considered to give the preferential area a preference. Formerly the ratio was about seven to one."

"So long as the toll ratio stands at two to one, the trustees feel that this question is a very minor one and estimate that the difference in revenue to the district will be less than \$50 a year. Last year on the seven to one ratio the difference was about \$135. The attitude of the trustees is strictly neutral and they do not think the opinion of the electorate could be obtained without a plebiscite. The whole matter deals only with flood waters."

After receiving this above letter, the chairman pointed out, the minister replied by asking for a few more particulars. Then the trustees advised him that a general meeting would be held some time in November and a plebiscite taken.

Trustee LeGuen explained that he had gone into these matters in some detail, but he wished to show the situation as it exists today. The general discussion then commenced:

GENERAL DISCUSSION

O. M. Watson—"Are we asked to get definite limitations of the preferential area defined?"

Chairman—"That is one of the objects of the meeting. Inasmuch as Plan Y referred to has not been properly identified, the trustees wish to know if this plan is going to be adopted as the plan referred to as Plan Y in the minutes of the trustees of 1923."

O. M. Watson—"Are any trustees present who know about the signing of the plan?"

Chairman—"The matter ought to be explained that this plan was found among old papers, in the district office, after considerable searching, and is the only plan of this nature which can be found. This plan is not identified as it lacks a signature of any sort. Lacking other evidence, it is believed to be Plan Y referred to in the minutes of meeting of the trustees of February 6, 1923, and that the matter of signatures was overlooked. The Trustees would like an expression of opinion as to whether the plan be passed or not, and unless there is a strong contrary opinion they propose to pass a resolution at the next trustees' meeting accepting the said Plan Y."

The only known evidence against accepting the plan without question, said Trustee LeGuen, is that a note was found in the plan file, as follows: "On March 31st, 1926, Plan 'Y' which is a revised map of Coldstream Internal System, was loaned to M. V. McCutcheon."

"The return of this plan was requested and we were advised that it had been returned. The only point at issue is that the word revised is used in describing the plan. Careful search has been made and no other plan can be found. The word revision may refer to the four lots added by the trustees of 1926 and 1927."

Major E. H. Cuffie—"I was on the committee which deliberated with the trustees on the drafting of what constituted the waters of Coldstream Creek and the drawing up and marking of Plan Y and have not the slightest doubt that Plan Y as shown is the original Plan Y, but do not know why it was not signed. I am willing to take an affidavit."

(Continued on Page 13)

"... And Another Thing, Mr. King ..."

With uplifted finger, President Roosevelt discusses with Prime Minister King the recently signed reciprocal trade treaty between Canada and the United States. The scene is in the East room of the White House, Washington, where members of United States, Canadian and British governments put their signatures to pacts designed to mutually benefit the three democracies.

Improvements Made For Sporting Fish Are Outlined Here

Coldstream Creek Situation Improved, According To A. J. Bishop Report

Steps that have been taken to stop the loss of sport fish in Coldstream Creek were outlined recently at a meeting of the Vernon Fish & Game Protective Association, in a report presented by John A. Bishop, of Coldstream.

A committee of Mr. Bishop, and W. S. Harris and S. P. Seymour, former presidents of the association, was instructed to take steps to survey the creek.

The report follows: In accordance with resolution of your executive committee passed on July 11, appointing a committee consisting of W. S. Harris, Sid Seymour and J. A. Bishop, reading: "That an estimate of the cost of the suggested fish screen such as was used in Oregon be first secured from the blue prints in W. S. Harris' possession, that a committee from the club then interview the Vernon Irrigation District at their next meeting to ask their co-operation by the installation of a rotary fish screen, such as used in Oregon in order to prevent the enormous loss of spawning fish and young fry which at the present time are lost through the irrigation outlets of Coldstream Creek."

Your committee begs to report as follows:

Some little delay at first occurred owing to the blue prints of the revolving screens having become mislaid between the Vancouver and Kamloops offices of the Game Commissioners to whom they had been sent for examination and approval. In the meantime, on August 11, 1938, your committee examined the blue prints and found that the plan was sound, and found at various points a large number of small fry and young fish up to five inches in length, which by actual count were estimated to amount to 10,000 fish per mile of ditch. The intake was open about three inches and the diversion dam across the creek was closed with only a small dribble of water running over the top, thus preventing all fish from dropping down the creek into the lake.

Further examination was made of the intake and ditch on September 2, when the ditch was dry except for a few yards from the intake where the water was lying in small pools. In all depressions where the water had laid in pools before drying up, dead fish were found, 100 dead fish being found in one depression and 130 in another a few yards away. While near the intake over 50 young fish were taken from one small pool about six feet long two feet wide and put back into the creek. Numerous orchardists were interviewed, from whom it was learned that thousands of fish ranging from small fry to eight pounds in weight had been deposited on the land or had been lost in the ditch. This condition had existed for a number of years, resulting in the loss of hundreds of thousands, if not millions of fish which otherwise would have stocked Kalamalka Lake with an adequate supply of fish. Several problems presented themselves which required careful consideration and it was decided to consult with the Fish and Game Department at Vancouver for advice and assistance. On September 12 a letter was written to the Game Commissioners, placing the whole situation before them, requesting that a fishery officer be sent to make a complete survey of the Coldstream Creek and connecting irrigation ditches, and give your committee the benefit of his advice and assistance.

This letter received an immediate response from the Department who instructed Officer Robinson, who was then in Salmon Arm attending

to the extermination of carp in Salmon River, to report to this committee.

On September 19 Mr. Robinson arrived and the day was spent with him examining the Coldstream Creek and irrigation ditches from Lavington to the Walker Ditch, and the next day Mr. Robinson again went over the entire irrigation system intakes and the Creek from its source to the Lake with Mr. Tassie, manager of the Vernon Irrigation District, who kindly co-operated with him to the fullest extent and rendered him valuable assistance by giving him information regarding the condition of the Creek while the irrigation ditches were in operation.

Your committee also fully impressed upon Mr. Robinson the paramount importance of finding a solution of the problem without in any way interfering with the water supply to irrigation ditches and of avoiding if possible any burden of expense being thrown upon the irrigation district. After a careful study of the entire situation Mr. Robinson decided that, with some slight improvement to the spawning beds, a screen placed immediately below the intake of the Walker ditch, in a suitable position, thus preventing the spawning fish from going up stream to the irrigation intakes, there would be ample spawning beds in the two and a half miles of creek between the ditches and the lake to take care of the situation, and he so reported to the Game Commissioners.

On November 2 Mr. Robinson having received instructions to proceed, installed an efficient screen and it is his intention to return in the early spring to put in further gravel beds in the creek and to put in Kokanee spawn and a large number of trout fry and to prohibit fishing within an area to be decided upon at the mouth of the creek, which it is proposed to mark off with buoys. The committee is pleased to report that the Game Department realizing the importance of Kalamalka Lake as a valuable asset to this community, have undertaken the work of restoring it to a first class fishing lake. This course of action is commendable and we express its appreciation of the manner in which the Game Commissioners have taken this important work in hand and also to the Irrigation District for its sympathetic co-operation.

The committee is confident that in three or four years, Kalamalka Lake will be restored to a good fishing lake and become a resort of numbers of tourist sportsmen.

Without receiving instructions the committee decided it advisable to call the attention of the members to the fishing at Sugar Lake. Apparently there is an abundance of game fish in this lake, but they do not grow to any size, and a suggestion has been made to Mr. Robinson and also to Game Commissioner Cunningham, that next year an investigation be made to ascertain why the fish do not grow larger in this lake, and to take such steps as will insure a continuance of good fishing in this lake. This course is deemed advisable because the road has now been completed up the west side of Sugar Lake, and next year there would be very much more fishing than hitherto. As many as twenty boats were seen on the lake on Sunday this year and probably next year there will be double the number. So, that, if the fishing is to be maintained at the present high level, the committee recommends the Club to do something constructive to secure advice and assistance from the Game Department. This might take the form of the examination of the food supply and an investigation to see why there are so many lice on the fish in this lake during the warm weather.

North Okanagan Is Prominent Winner At Seed, Root Show

Large Share Of Prizes Awarded To Growers From Valley Districts

North Okanagan growers were prominent winners and exhibitors at the B.C. Seed and Root Fair, held last week in conjunction with the Vancouver Winter Fair. A list of North Okanagan winners follows:

Corn, garden, 6 ears: 2, Pearson Bros., Vernon; 4, M. S. Middleton, Vernon, golden bantam. Peas, garden or canning, 10 pounds: Thomson-Lane seeds, Armstrong, Laxton's progress; 4, Pearson Bros., Vernon, Lincoln. Beans, bush or pole, 10 pounds: 2, Thomson-Lane Seeds, Armstrong, stringless greenpod; 3, Pearson Bros., Vernon; 4, Mutrie & Mutrie, Vernon.

Squash, 2 pounds: 2, W. H. Baumbrough, Vernon, green hubbard; 3, M. S. Middleton, Vernon, golden hubbard. Carrots, 2 pounds and six roots: 1, Pearson Bros., Vernon, red cored chantenay; 2, Thomson-Lane Seeds, Armstrong, same variety.

Beets, 2 pounds and 6 roots: 3, Thomson-Lane Seeds, Armstrong, red dark.

Onions, 2 pounds and 6 bulbs: 1, Mutrie & Mutrie, yellow globe danc.

Farsnip, 2 pounds and 6 roots: 3, Thomson-Lane Seeds, Armstrong, hollow crown.

Mangel, 8 pounds and 6 roots: 4, Thomson-Lane Seeds, Armstrong, yellow intermediate.

Wheat, spring, 18 pounds: 1, G. K. Landon, Armstrong, reward.

Alfalfa, 18 pounds: 1, Frank Choaveux, Okanagan Landing, Ladak.

Corn, field, 6 ears: 1, J. Spall, Kelowna, golden glow.

Vegetable seed, registered or certified, any other kind: 1, W. H. Baumbrough, Vernon; 2, Thomson-Lane Seeds, Armstrong.

Seeds—Commercial Classes

Alfalfa, 18 pounds: 3, T. N. Hayes, Armstrong, Ontario variegated; 4, M. S. Middleton, Vernon, grimm.

Oats, medium, or late, 18 pounds: 3, W. T. Hayhurst & Son, Armstrong, reward.

Wheat, hard red spring, 18 pounds: 1, G. K. Landon, Armstrong, reward; 4, W. T. Hayhurst & Son, Armstrong, Marquis.

Wheat, soft red winter, 18 pounds: Thomas Phillips, Armstrong, husar.

Rye, fall or spring, 18 pounds: 3, T. N. Hayes, Armstrong, storm.

Seeds—Exhibition Classes

Wheat, hard red winter, 18 pounds: 2, G. K. Landon, Armstrong, ridit; 3, T. N. Hayes, Armstrong, oro.

Corn, field, dent, 6 ears: 1, J. Spall, Kelowna, golden glow; 2, Eugene Rutledge, Kelowna.

Corn, field, flint, 6 ears: 1, E. B. Hunter, Vernon.

Clover, alsike, 18 pounds: 4, J. H. McCollan, Armstrong.

Alfalfa, 18 pounds: 1, Vance Young, Armstrong; 2, J. McCollan, Armstrong.

Garden peas, dwarf, 10 pounds: 1, W. T. Hayhurst & Son, Armstrong, dwarf telephone.

Beans, pole: 2, Pearson Bros., Vernon.

Any other kind of vegetable seed: 1, Pearson Bros., Vernon.

Irish Cabbler or Early Epicure potatoes: 2, D. B. Butchart, Salmon Arm, early epicure; 3, A. D. Heywood, Salmon Arm, Irish cobbler.

Any other variety, late, named, 15 potatoes: 1, D. B. Butchart, Salmon Arm, kataladin.

Certified-seed potatoes, commercial classes: 25 pounds of any other variety, large size: 4, A. & D. Heywood, Salmon Arm, Irish cobbler.

Amateur potato class, any variety, early, 12 potatoes: 2, D. Olemson,

STRONG VOLUME OF EXPORT SHIPMENTS

How strong the volume of recent export movement was is shown in a circular released by the B.C. Fruit Board.

For the week ending November 19, the completed statistics now reveal, the total sales to export were 177,872 boxes. In the same week in the previous year the total was 154,924 boxes. In 1936 it was 105,835 and in 1935 76,115.

For the same week the domestic totals were in 1938: 62,738; 1937: 67,830; 1936: 38,278; 1935: 94,845.

KEDLESTON'S SCHOOL CONCERT DECEMBER 16

KEDLESTON, B.C., Nov. 26.—The teacher, Miss Rice, is very busy these days preparing for the annual Christmas tree and concert, which is to be held on December 16. There will be no dance after the concert, the evening being devoted entirely to the children. Congratulations are extended to Mr. and Mrs. G. Rugg on the birth of a baby daughter.

BUY AT HOME AND LOOK YOUR TOWNSMEN STRAIGHT IN THE EYE

WHY DO we buy at home? Because we can see and if necessary can handle and test the merchandise we are buying.

Because we can compare its value for the purpose in mind with other materials we have seen and possessed.

Because in buying at home, we are spending our money in a place which will give us the best opportunity of again acquiring it.

Because by buying at home we are dealing with those we trust, those who trust us, and because by doing so we are making jobs for our own and our neighbors boys and girls.

Because by buying at home we are helping our friends and neighbors to continue to pay for water, light, sewers, sidewalks, etc.

Because it is our friends whose habits of buying at home make it possible for us to enjoy the pleasures and advantages which are everywhere around about us.

Because we get all that is embraced in that much abused word "service."

Because buying at home enables us to continue to live in the heart of the Okanagan Valley, the most beautiful and most healthful place in all the wide world.

If you send your money abroad, are you doing all you can to help your merchants, business and professional men; to help your friends pay their taxes; to keep down unemployment among your neighbors and friends?

Will you feel quite comfortable during the festive season when amidst the happy throng in your home town, you have the guilty feeling that you helped to slit the economic throat of the men and women whose "Happy Christmas" greeting you are returning?

Buy at home because if it should cost you a little more, it is worth it. Remember you helped create the conditions which while making life more worth while, added to the cost.

PRACTICAL PEOPLE WITNESSING DAWN OF A NEW AND BETTER DAY

NOT ALL practical people have seen the advantage or the use which the Canadian Chamber of Agriculture may be to Canada. Some of us even who encouraged its formation in the early days when the first body was the British Columbia Chamber of Agriculture, were not sure it could or would amount to very much.

The first publicist in Canada to really grasp the uses to which it could be put was C. A. Hayden, editor of Country Life in B.C., and secretary of the B.C.F.G.A. W. E. Haskins, of the Tree Fruit Board, Major E. E. Hutton, Summerland, and E. J. Chambers, president of the Associated Growers were among the first half dozen.

It has been the good fortune of Mr. Hayden not only to be in at the beginning when the idea was germinating, but it was his fertile brain that sparked the conference of leading Canadians in Toronto, assembled to see what can be done to secure recognition for agriculture as the foundation for Canada's economic structure. Industry, science, and agriculture, as a result, are regarding each other in the light of a new-found understanding. They are planning a partnership founded on mutual need and aspirations.

A reading of the list of those attending the meeting, reflection on their affiliations, and understanding of their fresh purpose is the most hopeful sign in the sky in many a long day. A start has been made. There are plenty difficulties, misunderstanding, and cross purposes to be overcome but if the spirit which animated the men attending the gathering at Toronto is nurtured and comes to fruition, what we are witnessing is the dawn of a new and better day.

FIRST-HAND DESCRIPTION OF WORLD SHAKING EVENTS

SUCH verbal descriptions of world shaking events as have been given to people in Vernon by Capt. Elmore Philpott and more recently by Capt. H. G. Scott, are the best way of obtaining accurate information. Next to this is the reading of reports of their addresses. Large numbers heard both speakers, through the enterprise of the Canadian Club, and an even larger number obtained information through reading reports in the weekly newspapers.

News dispatches in the daily papers give day to day high-lights of the news but they cannot bring home to our people, as do these descriptions, the correct relation of cause and effect. Seldom are they interpretative. Because many of the articles in weekly newspapers are, interpretative, people in the smaller centres, have a more accurate and informed view of world events. They also have leisure to ponder and to reflect. The daily newspaper reader either looks over the paper the day it arrives, or it is unread. The weekly newspaper is retained until the following issue arrives. Seldom a day passes that it is not consulted for some item of information. It may be a moot point in the news, somebody's views, or store news.

To return to the report of Captain Scott's address, it outlined the events leading up to the crisis over Czechoslovakia, showing the progressive breaking of pledges by Germany and the galloping progress towards a resumption of world power under a Hitler who has no regard for God and a positive contempt for solemn pledges. To him they are something to trick like enemies and friends. With him, always, the end justifies the means.

It is hard for Anglo Saxons to conceive as possible, the situation and the plight of peoples in Germany and in other parts of the world. Here, in a liberty almost amounting to license, everyone speaks his mind, goes his own way, unless it is a too flagrant violation of the rights of others. In Germany, husband does not dare

Afterglow

After the clangor of battle

There comes a moment of rest,
And the simple hopes and the simple joys
And the simple thoughts are best.

After the victor's paean,

After the thunder of gun,
There comes a lull that must come to all,
Before the set of the sun.

Then what is the happiest memory?

Is it the foe's defeat?
Is it the praise of the world
That thunders by at your feet?

Nay, nay, to the life-worn spirit

The happiest thoughts are those
That carry us back to the simple joys
And the sweetness of life's repose.

A simple love and a simple trust,

And a simple duty done,
Are truer torches to light, to death,
Than a whole world's victories won.

—WILFRED CAMPBELL.

whisper his inmost thoughts, even to his wife, while not to look pleased at revolting disclosures of perfidy, is to risk participation in a "blood bath."

In his graphic recital of events, Capt. Scott confined himself to a description of what he saw on the borders of a nation on the edge of ruin. A swift turn of events since that time has led to a treatment of the Jews, which has shocked humanity in all democracies. The speaker had a heart so filled with woe at what he had seen that he resisted the temptation and dealt with only what he had personally seen and heard and he left us pondering our part, our responsibility.

Those who had not the privilege of hearing Capt. Scott, and who are interested in world events, which these days come pretty close to home, should read the report in this newspaper. They will find it informative, the best substitute to having heard the address.

HARMONY IS SOUGHT AT MEETING OF VERNON IRRIGATION DISTRICT

CITIZENS of Vernon, each and every one, have a direct and personal interest in the welfare of the Vernon Irrigation District, known locally as the V.I.D. True, we may not pay tolls or taxes, but we would have very much less business activity in Vernon today, if there were not irrigation and an amalgamation of water rights and the water distribution system.

This is the reason for the extensive report of the meeting held on Thursday last. The readability of the discussion makes it a bright bit of copy and interesting. It is not our purpose to examine the wording of the notice which called the meeting, or any other than one feature. This is the proposal first offered the meeting by a comparative newcomer, W. Popowich. It was welcomed and in measure may be acted upon.

This is that the preferential area and the rights enjoyed by property owners in it, offer a constant source of dissatisfaction and should be abolished. To property owners without the area, it is abhorrent that they should continue to pay more for flood water than should some others. Owners within the area, whether original owners or later purchasers, have every reason to contend that the preference is a right that should not be taken away by force. True, they have enjoyed this privilege for years, but it also is inequitable that they should receive water, even flood water, for less than the cost of maintenance of the distribution system. It may be argued, and perhaps rightly so, that the preferential treatment is a continuing portion of the price of inducing owners of water rights to consent to enter the district and if this is forcibly taken away, that an injustice is done.

Should such a course be followed, it would be of no lasting benefit. It would leave another open sore and a rankling sense of injustice.

Action which might be taken, is to appeal to owners of property given a preference, to abandon it voluntarily. From the information that is available this is the one solution which will not perpetuate a condition of irritation it is sought to ameliorate.

WEEKLY GLIMPSES OF HISTORY FROM THE VERNON NEWS FILES

EVENTS of local and even national importance are called to mind when reading the history of the Okanagan; glimpses of which are supplied weekly by the ten, twenty, thirty, and forty years ago column in this newspaper.

If you want to know why Vernon and the Okanagan Valley are well known, almost unique in Canada, the best way is to follow history in the weekly glimpses afforded this way. For instance, ten years ago the city had \$30,000 to invest, and twenty years ago it added to its holdings of Victory bonds making the total \$65,000, and Vernon had an honor flag granted to communities that had taken their quotas of Victory loans. Then it is only 20 years ago that in the House of Commons in London, it was announced that imports of apples from Canada and the United States were being arranged for. The same year the Vernon Fruit Union completed the largest frost proof warehouse in the west with a capacity of 250 cars.

Is it nothing to you to know that 40 years ago the City Council invited tenders for an acetylene gas plant capable of supplying 65 burners at ten corners on Barnard Avenue? Or that thirty years ago work commenced on the installation of electric street lights?

After seeing magnificent "Marie Antoinette" in our splendid air-conditioned theatre, it is progressive to note that thirty years ago Vernon people had the very good opportunity to see some motion pictures flickered on the silver screen by E. H. Hagey. Some of the pictures were even said to be realistic.

LITTLE MINDS ARE TAMED AND SUBDUED BY MISFORTUNE; BUT GREAT MINDS RISE ABOVE IT.

—WASHINGTON IRVING.

THE NEW WALLING WALL

From The Vernon News Files

Twelve head of stock, said to be the property of Shell Bros., F. Murray, and M. McNair, were poisoned recently. The animals were on range land at the head of Okanagan lake and ate wild parsley. —Vernon

TEN YEARS AGO Thursday, Dec. 6, 1928
Junior hockey team plans to enter two leagues this season, the city and North Okanagan loops. —George E. McIntosh, Dominion fruit commissioner, Ottawa, is a visitor to the valley this week. He will inspect the various fruit offices. —J. H. Christie is retiring from any interest in the Boy Scout movement. His successor is James Forester. —Population of Vernon, by the latest census, is 3,750. —Large congregations attended St. Andrew's United Church anniversary services on Sunday. The congregational supper was held Monday evening. —On Saturday next Patrol Leaders of the North Okanagan will convene at Vernon to discuss problems of the Boy Scout movement. This is the first Scout conference to be held in the Interior. —It is expected that power at Shuswap Falls will be harnessed shortly after the first of the year.

The Council of the Board of Trade, at a recent meeting, wired authorities in Ottawa strongly urging an early start on the C.N.E. **TWENTY YEARS AGO** branch line from Kelowna Thursday, Dec. 5, 1918 to Kamloops with a spur to —Lumbly.—The Vernon City Club, which has recently been re-organized, was quietly re-opened this week. It is the intention of the executive to continue the work of increasing membership until every eligible citizen is enrolled. Since the ban was lifted last Saturday only two or three new cases of "flu" have been reported, with no indications of a fresh outbreak. —At a meeting of the congregation of St. Andrew's Presbyterian Church, it was decided to extend a call to Rev. Lennox Fraser, of Norwood, Winnipeg. It is understood Mr. Fraser has indicated his willingness to accept. He will succeed Rev. C. O. Main, who resigned two months ago. —Principal Hudson, of the Vernon High School, has tendered his resignation to the School Trustees.

The past week has seen a successful series of anniversary services in connection with the Methodist Church, which has been established in Vernon 15

THIRTY YEARS AGO Thursday, Dec. 3, 1908
The church was started as a mission in 1878 and the following year a building was erected and opened, with Rev. Thomas Neville as the first resident pastor. Present pastor is Rev. S. S. Osterhout. —British Columbia fruit has won another great triumph, securing for the fourth consecutive time, the gold medal, the highest award in the gift of the Royal Horticultural Society, London. —The annual banquet of St. Andrew's Society of the Okanagan was held in the Royal Hotel Monday night and was highly successful. President Reid presided. —Dr. K. C. MacDonald left Monday for Kamloops where, as returning officer for Yale-Cariboo, he will take charge of proceedings in connection with the official count of the ballots cast in the recent elections. —Angus Kilbee Stuart, of Port Francis, has been appointed a justice of the peace. He is the pioneer Okanagan editor and with W. J. Harber was the first publisher of The Vernon News.

The proposed street lighting scheme has been dropped by the City Council for the present, it being **FORTY YEARS AGO** the general opinion that it Thursday, Dec. 1, 1898 is too late in the season to put down the pipes.—The City Council has decided to canvass the city to find out how many people would be prepared to take water, so as to arrive at an approximate amount of the revenue. —Several hunting parties left Vernon this week after deer, most of them selecting White Valley as their field of slaughter. Among those out in the hills are E. Dobler, W. B. Cochran, B. Smith, and S. T. Elliott. —The C.P.R. is putting in a siding for the convenience of the flour mill and sash and door factory. It will be about 1,000 feet long.—The weather as yet has been too mild to permit of ice forming in the skating rink.

Selling Better Living

Calvin Coolidge once related that when he was a boy in the hills of Vermont the only merchandise he saw was in the country store, but his horizon was broadened by the advertising of things that appealed to youth. With his desires aroused for the interesting and better things in life, he strove to obtain them. As a result, he became a successful businessman. He learned about his advantages through advertising. "It is essential in the first instance to produce good merchandise but it is just as essential to create a desire for it."

This is a nut-shell, is the service of advertising. As Calvin Coolidge implied, the most useful household appliance, the longest-wearing rubber tire, or the best mousetrap in the world will never be popular if hidden from the public. We cannot have desires for things we do not know about. No motorist was concerned about having knee-action in his car until he learned about its advantages through advertising. Yet it represents a marked improvement in riding comfort.

A century ago it took a long time to introduce any improvement in the way of living. Even the example of President Fillmore, who installed the first bathtub in the White House in 1850, failed to make people bath-tub-conscious. Fifty years later it still was an unknown thing to have a bathtub in the home. The invention was there but people did not care about it—not until advertising got on the job and sold bathtubs. Then everybody wanted them, and today no home is complete without one.

Only a short time ago our bathtubs were ugly and

could be. Somehow, no one thought of making them beautiful. But when manufacturers began to advertise artistic tile, tinted bathtubs, and beautiful plumbing fixtures, everybody realized how much pleasure life can be with beauty in the bathroom. Our parents and grandparents were well satisfied with the heavy staple foods of their time but we have learned to demand a balanced diet, with plenty of vitamins and minerals and a goodly assortment of light salads and tasty desserts, to say nothing of out-of-season vegetables and fruits. Our food is much better today, because our eating habits have been changed by advertising.

Where do you suppose the radio industry would be if manufacturers had not advertised their receiving sets? Only fifteen years ago home radios were practically unknown. Few people cared about radio or thought it would ever amount to much. But the infant industry embarked on a tremendous advertising campaign, through newspapers, magazines, signs, and circulars, and in a miraculously short time radio sets were introduced into four out of every five homes in the land.

It is the same with many other articles. Millions brush their teeth because advertising sold them toothpaste, and many children have even been persuaded by advertising to wash their necks and eat their spinach.

Better living comes not merely through natural desires, but through education, and advertising is one of the strongest forces in public education. Advertising is the salesman for better living.

Man Behind The News

In a misty old office in the east block of the Parliament Buildings, along the corridor from the Prime Minister's office, there works a man who creates more news of international importance than all the departments of government. Yet, rarely, if ever, does his name appear in headlines. He is Dr. Oscar D. Skelton, the man behind the news in the Department of External Affairs, and his influence is felt in London and Washington and Tokyo. He plays for Canada the game of international politics, says the Toronto Globe and Mail.

For thirteen years he has been the chief adviser to successive prime ministers on matters of external policy, for he holds the post of permanent Under-Secretary of State on external affairs.

Dr. Skelton works behind the scenes on trade treaties, in empire defense matters, and in any incident of international importance which concerns Canada, whether it be immigration of refugees or train-

ing of British pilots. Just now his big job is refugees. Before he came to the government, Dr. Skelton had launched another successful career, far removed from the international scene. He was professor of economics at Queen's University, where he had worked for fifteen years, rising to become the dean of the faculty of arts.

Dr. Skelton's private life is conducted along the same lines as his life in public service. He avoids the social whirl that grips Ottawa during the winter season, and lives quietly in suburban Rockcliffe.

He is a fast friend of newspapermen, often putting them right on a tricky international situation which may involve Canadian neutrality.

Next time you read in flaring headlines of some incident concerning Canada, or when you see the Prime Minister has made a pronouncement on foreign policy, you can set your mind at ease that the man who directs these affairs is Dr. Oscar Skelton.

Week in Canada

Prime Minister Mackenzie King in Ottawa, announced resignation of Hon. Newton W. Rowell as chief Justice of Ontario and as chairman of the five-man Royal Commission on Dominion-Provincial Relations. Chief Justice Rowell, whose health failed him late last Spring, had tendered his resignation "some time ago," the Prime Minister said, but the government had been reluctant to accept it, "hoping that his recovery would be sufficient to enable him to resume his full duties." Dr. Joseph Stairs, of Laval University, who has presided over the commission since its chairman became ill, has accepted the chairmanship for the remainder of its work, the Prime Minister stated. The four remaining members of the commission would conclude its hearings and make its report without appointment of another member to take Chief Justice Rowell's place. Mr. King indicated the sample was "practically completed" and that its report would be made available "during the next few months." He paid tribute to Mr. Rowell for the work he had done before his health failed.

Two young Canadian brothers qualified as champion grain growers when they moved into the "king row" at the international grain and hay show in Chicago, Ill. F. Rigby, 23, of Wenlock, Alta., pushed his competition aside to win the coveted "wheat king" crown and his younger brother, W. Justyn Rigby, 22, took a place alongside him as the "oats king." The "wheat king's" sample of grain of the Reward variety was outstanding. It weighed 67.5 pounds to the bushel and judges said the sample was one of the finest of red hard spring wheat they had ever seen. The Reward variety was developed by the Canadian government Experimental Farm at Ottawa in 1924 and the award marked the seventh consecutive time this variety has won in annual competition at Chicago.

The Public Utilities Bill was presented in the British Columbia Legislature by Premier T. D. Pattullo, in terms much as predicted. The measure calls for a three-man board on ten-year contracts, responsible to the Lieutenant-Governor-in-Council, with limited rights of appeal from its decisions, and with a wide measure of power over transportation, communication and industrial utilities within provincial bounds. Specifically, the board will be given power to deal with rail, tramway and ferry transportation; with toll bridges; with telephone and telegraphs; with hydro and generated power, light, heat and artificial refrigerating services; with waterworks; with motor vehicles plying for hire, including buses; under broad regulatory authority, and with penalties of up to \$500 for infractions.

Moral rearmament, "something far more than prohibitions, prohibitions and laws," has become the world's vital need, Herbert Hoover, former United States President, said in an address at the fifteenth annual dinner of the York Bible Class, in Toronto. "Indeed, the world is waiting for some spiritual or ethical control of material powers and it can not wait for long," he said. "At the present time nothing so concerns the progress of mankind." Democracies, while they may view the world's violence with horror, have greater moral troubles, he asserted, adding: "A score of democracies have sunk since the war and armed dictatorships have risen in their places. They proclaim new ideologies of economic security to sanctify personal power. They live by terror and brutality."

A "black phantom" wolf is causing a lot of uneasiness in the Chilcotin, a district west of Williams Lake. A Williams Lake resident, just back from a trip through the district, said the beast appeared at intervals around ranches and settlers' cabins. Cowboys and homesteaders, he said, have shot at the wolf, which they declare is about as big as the average and is about black but, far from the animal, he has eluded them. Ranchers insist that wolf packs are on the increase through the Chilcotin range. Bears caused considerable havoc among stray stock in recent years but the wolves are more vicious and kill during the winter months while bears are asleep.

Unstated damages are sought in four writs entered in Ontario Supreme Court by Major James F. Hahn and the John Inglis Company, Limited, who have a contract to manufacture Bren guns for the British and Canadian Governments is being investigated at Ottawa by a royal commissioner. Defendants are named as Colonel George A. Drew, whose article in Maclean's Magazine precipitated the inquiry; H. Napier Moore, editor of the magazine; the Maclean Publishing Company and Floyd S. Chalmers, editor of The Financial Post. One writ filed on behalf of Major Hahn alleges that the article written by Colonel Drew contained libel and names Moore as editor of Maclean's Magazine.

It now is established definitely that cancer mortality can be almost cut in half if people will see medical advisors for early diagnosis, submit to a periodic health examination and obtain adequate treatment at an early stage. Dr. G. G. Ross, executive secretary, Canadian Society for the Control of Cancer, said in Toronto. Addressing the women's division of the Health League of Canada, Dr. Ross urged women, as "custodians of a family's health," to enlist in the war against cancer.

A blizzard battered Nova Scotia as the province staggered from effects of a severe storm over the week end that caused extensive property damage, threatened shipping and disrupted communication lines. A strong east wind of almost gale proportions blew in from the sea. Six ocean ships the Halifax were hours overdue. Coastal shipping apparently weathered the gale. From Prince Edward Island, however, came a report two small fishing boats were missing off the north shore.

Some form of controlled production offers the only solution to the problems of Western Canada farmers believes Ned Linden of Kelowna, B.C., when he was interviewed at his 130 acre farm near Kelowna. Mr. Linden, now 60 years old, declared it might be advisable for western farmers to go on a "sit-down" strike to gain rightful recognition of their industry. The Swedish-born farmer finds, after years of toil, the only thing he has been able to make any money on is "pigs."

Betty Lou Carruthers is dead. The 22-year-old baby that arrived prematurely to Mrs. James Carruthers, wife of a coal miner, died in Drumheller, Alta., when she was six days old. Betty Lou was just a foot long when she was born and she was Chaney's youngest baby. She was normal in every respect except for size and until a day before her death hope for her survival was high.

An all-time record price for beef-cattle in Columbia was paid at the Provincial Winter Fair in Vancouver, when two-year-old Willie Turner, of Chilliwack, sold his grand champion steer, Snow-white, for \$1 a pound. The animal scaled 645 pounds.

Do You Really KNOW The Okanagan?

By Douglas Kermode

NOT TILL YOU'VE HAD THE THRILL OF LOOKING DOWN ON ITS BEAUTIES FROM THE AIR

Many will tell you that they have covered this valley from one end to the other and across it again and again and they are convinced that they have seen all the splendour it has to offer and what's more, they are thoroughly convinced that it is a beautiful place in which to live. But have they really seen the valley to its full advantage? They may have lived here for forty years or more, but it is my contention that unless one has seen the Okanagan from the air one has no idea of the real glory that lies below and to the horizon beyond.

Recently the writer had occasion to make several air trips around the district and was able to make note of some of the more familiar spots that pass the eye of the layman as being of no especial scenic interest.

After several trips one becomes accustomed to the sensations of this new mode of travel and may be said to settle down and take time off to really look around. The objective of such a trip is to fly over the famous fishing grounds of the Beaver Lake chain situated on the Harris Creek plateau some 15 air miles east from Winfield.

In order to build up high plateau before going over this high plateau it is necessary for the pilot to fly up the valley as far as Lumby, then turn west again and return over the Coldstream and down Kalamalka Lake, passing over Oyama and on to Winfield. By this time the meter is registering 8,500 feet above sea level and this height was maintained for the rest of the trip.

After circling over the end of Woods Lake far below, giving a good view of Kelowna to the south, the plane's nose was pointed to the east where the glistening waters of Beaver Lake could now be clearly discerned.

OVER 300 LAKES
After another 15 minutes the plane was flying above this time the lake and the rest of the lakes that make up the Beaver Lake and Deer Lake chain could be clearly seen stretching eastward. Immediately below lay some of the most heavily wooded country imaginable. The trees appeared to be so close together that they looked like a dense, bristled brush. Actually we were flying 4,000 feet above the plateau; which incidentally, is well named as a plateau, as it appears to be moderately flat with a gentle slope towards the high Monashee peaks some 30 miles away, and is studded with over 300 lakes of all sizes and shapes throughout its area.

Within a few minutes we found ourselves cruising over Oyama Lake which lies about three or four miles north of Beaver Lake. This body of water, also a noted fishing haven, is better known as Island Lake by virtue of the score of islands that are dotted throughout its two miles. No truer gem of nature could be imagined than this blue body of water set firmly in nature's emerald green carpet and studded with islands of every hue, each island presented a different pattern caused by autumn's fast-changing tints.

The grandeur of this lake and the surrounding country was undoubtedly one of the highlights of the trip.

Between Beaver and Oyama Lakes there are very few ponds, but from Island Lake northward and eastward there are so many bodies of water it is impossible to count them accurately or in the time it takes to pass by that country.

About this time one becomes aware of a grand spectacle that is made possible only by flying at this high altitude. And that is the view of the high jagged snow-capped peaks of the Monashee and Selkirk Ranges far to the east.

As it was an exceptionally clear day these high peaks appearing like

a rough tooth saw and crystal white, were visible from as far north as the vicinity of Revelstoke and as far south as the eye could discern. Their majestic splendor holds one spellbound and one wonders if a fairland of beauty equal to the Okanagan doesn't lie beyond this rocky barrier.

Old timers may say that they have seen these peaks to advantage from atop the Silver Star mountain, but picture the view obtainable from an additional 2,000 feet. By this time pilot and observer had crossed over the Coldstream and Lumby district and were circling over the Silver Star prior to heading the nose of the plane for home. The lookout cabin appeared as a small white object and Vernon Lake to the west took on the appearance of an oversized mud puddle as the long shadows of the afternoon sun cast their sombre hues over the green water.

Time and space mean little to an airplane and within ten minutes of circling the cabin the pilot was approaching Vernon and preparing to land after what he and your observer both agree had been one of the most scenic jaunts ever to be crammed into an hour and forty minutes. Although it was possible to see practically the whole of the Okanagan Valley we had actually covered only a portion of it during that time.

ANOTHER TRIP

A later and shorter flight covered territory much closer to home but none the less beautiful. On this occasion the trip took in the country from Okanagan Landing to a point a few miles this end of Okanagan Centre, across the "Birnle Range" to Kalamalka Lake and on to home.

From the lake and road one can always admire the rugged shore line of Okanagan lake down to the quarry, but from the air it takes on an entirely different contour. From the water Cameron's Point appears to be a graceful but of land that breaks an otherwise smooth shore line dotted with a few bays.

But the birds must think differently. From the air this point appears to be a misshapen blob of land and rock that spoils an otherwise perfect collection of symmetrical bays and inlets. That is the most noticeable feature. How beautifully symmetrical are the various bays, especially Otter Bay, one would think that it had all been drawn out on paper by the Creator before the chisels of nature had set to work carving it out so evenly.

Crossing over the Birnle Range with its collection of ponds and wooded patches, one comes to what must be one of the most beautiful bodies of water in the world. Some one once named it Kalamalka, the lake of a thousand tints.

It couldn't have been an airplane who so called it, as he would have said it had at least ten thousand shades and hues. This is especially so near sundown, when a spot in the lake will change to several colors before your eyes, in the space of a few seconds. The hills on either side and the sky above are vividly reflected in its crystal clear waters that are forever changing. This, coupled with the twisting and winding white ribbon that is Kalamalka drive, and the undulating shore line patiently followed by the tin steel lines of the railway track, will make it one of the stellar attractions should an airplane through here ever put out scenic folders.

And yet every time one approaches the airport for a landing, one of the simplest of familiar landmarks appears as a gem set in a desert. Visiting pilots often remark on what a pretty sight the reservoir on top of Mission Hill presents with its high orange-colored fence setting off its deep blue contents. On the

ground it is just a reservoir, but from the air it is a thing of beauty. Old and young timers; do you really know your Okanagan? The answer is decidedly no, until you've seen it from the air.

WINFIELD COMMUNITY HALL HAS WATER LAID

WINFIELD, B.C., Nov. 29.—At long last the Community Hall has water service installed. It will be much appreciated by all those interested in hall functions.

The St. Margaret's Anglican Church Guild are holding their annual bazaar on Wednesday of this week. There will be novelty stalls, home cooking, etc., and tea will be served during the afternoon.

Mrs. C. L. Gunn returned to her home on Saturday last after spending several weeks visiting with her daughter and family at Creston. She was accompanied on her return by her son, Clifford, who had spent the summer at Creston.

Mr. and Mrs. Alan Gibbons, of Oliver, were week end visitors to Winfield.

GOOD SKATING NEAR SUMMERLAND ENJOYED

SUMMERLAND, B.C., Nov. 28.—About a hundred people skated on James Lake on Sunday afternoon on good clear ice, and with no wind blowing. Skating at this time of year is rare in the Okanagan Valley, and at other times, when there is ice on James Lake, usually there is snow too. This year conditions are ideal, and the four-acre sheet of ice is a popular spot.

White-fishing, which has been fairly good for the past month along the shores of Okanagan Lake, is practically over for this year.

Miss Edith Bouvair, a member of the Ladies' Hospital Auxiliary, who is leaving Summerland, was entertained by the organization last Monday evening at the home of Mrs. A. S. Knowles. Games and contests were played, and refreshments served. Mrs. F. E. Atkinson, president of the auxiliary, expressed the regret felt because of Miss Bouvair's departure and presented a gift.

The Summerland Co-operative Growers held their annual end-of-the-season dance in the Ellison Hall on Friday evening.

PENTICTON SCOUTS TO BE RE-ORGANIZED

PENTICTON, B.C., Nov. 30.—Penticton Scouts will be completely re-organized this coming winter and a start in this direction was made recently, when a special meeting of interested groups was held.

R. S. Warr took the chair and was elected president pro tem of the newly formed association. Patrol Leader Bill MacFarland acted as secretary of the gathering, and Charles Riebler secretary. Jim McRae, a former Scout, was named as vice-president of the new group.

F. C. Martin said he had instigated the meeting, when he had found the difficulties the local group were facing. Some suggestions he had made concerning the movement had not been found acceptable by the patrol leaders, who had then informed him of the difficulties they were faced with.

ground it is just a reservoir, but from the air it is a thing of beauty. Old and young timers; do you really know your Okanagan? The answer is decidedly no, until you've seen it from the air.

Mr. Bennett's announcement that he is retiring from public life has brought genuine regret from both sides of the political fence. The former premier will leave his post of freedom behind him when he leaves to take up residence in his English home, especially among the younger set. Mr. Bennett has become the champion of youth. His office has always been open to the young men and women. He likes to hear their ideas, no matter how immature and inexperienced, and to slip in his word of fatherly advice.

Mr. Bennett's withdrawal from Canada, which it is rumored may come even sooner than he has given people to believe, has provided a new and enticing moral for gossip. His statement that he was not regularly a resident of Great Britain is taken as significant and speculation is already rife on what title will be bestowed on the elder statesman when the next King's honors list comes along.

The idea is not without logic. Mr. Bennett and Mr. Chamberlain have

LEGION BRANCH AT ARMSTRONG DECIDES TO AID HOCKEY CLUB

Annual Meeting Votes To Provide Sweaters For Players

ARMSTRONG, B.C., Nov. 30.—In what was described as the best annual meeting in years the Armstrong branch of the Canadian Legion met recently in their club rooms with President G. Potchecary in the chair.

Called to order at 8 p.m. by the president, 47 members were present and all entered into the business of approving the various reports. Two applications for membership had been considered by the executive and duly sanctioned by the credentials committee, and were admitted to the Legion.

The financial statement was presented by the chairman of the finance committee showing a net profit of \$96.51 for the year, and adopted. Comrade J. L. Hopkins gave a very full report on the Pension Committee work for the year. In the Pension Act was particularly stressed, regarding widows of pensioners who are ineligible for pension. Unless a pensioner is receiving under 50 percent disability his widow does not receive any pension. There is now a graduated scale of increase in pension over 50 percent.

The committee were given a hearty vote of thanks for their work during the past year.

The question of support for the hockey team was discussed and ultimately it was decided that the Legion should support the club by providing sweaters with lettering for the players. L. Wood, manager of the hockey team, who was present, thanked the meeting for their action.

The executive at a previous meeting had decided to follow the example of past years and give the school children their annual picture show and candy treat, the treat to be given on Friday, December 16, the closing day of school. This was agreed to by the meeting without any comment.

The election of officers resulted as follows: President, Theron Warner; 1st vice-president, J. E. Clarke; 2nd vice-president, L. E. Tripp; executive, W. Parker, Harvey Brown, H. J. Austin, W. Pearson, George Potchecary; treasurer, three years, T. Y. Andrews; steward, C. Watson; secretary, V. T. N. Pellett.

Upon taking the chair as president, Theron Warner presented the retiring president, G. Potchecary, with a clock with chiming. He congratulated Mr. Potchecary on his recent marriage and wished him and his bride every success and happiness.

BANK OF MONTREAL REPORTING PROGRESS IN 1938 STATEMENT

Continued progress is revealed by the 12th annual statement of the Bank of Montreal for the period ending October 31, now being distributed to shareholders. In addition to growth in current loans, deposits show a substantial increase; the cash position of the Bank is stronger; the liquid position is well maintained and the total assets of \$874,255,828 are at the highest point since 1929. Profits show some contraction but would have been above the level of the previous year had it not been for the greater amount required in Dominion and Provincial Government taxes.

Deposits, at a total of \$763,156,945, are higher by \$45,357,839. There is some reduction in the notes of the Bank in circulation, in keeping with the curtailment in bank circulations following upon the greater percentage of Bank of Canada notes now being used throughout the country. In addition to the expansion of current loans to business and industry, including loans to provincial and municipal governments and school districts by \$22,942,637 to a total of \$227,703,449, the Bank's cash resources of \$152,840,082 show an increase of \$17,929,772, and there is a further growth of \$3,354,995 in holdings of government bonds and other debentures, such investments, the greater portion of which consist of gilt-edged securities which mature at early dates, now totalling \$440,739,020.

The main line of attack by Conservatives, however, will be the cry that the industrial provinces of Ontario and Quebec are being sold out for the benefit of a free trade West and the coastal provinces. American concessions have been obtained on fish, cattle, coarse grains, fur pelts, and potatoes. The lumber picture in British Columbia, while it still needs some clarifying, is admittedly better than had been expected. On the other hand, Quebec and Ontario get little and, it is claimed, pay the piper in lower textile tariffs, less protection for farm implements and a score of other less drastic inroads on domestic markets.

The industrial provinces will ask, are the industrial provinces expected to pay minimum wheat prices, drought relief, and Hudson Bay railway deficits if they are robbed of the safety of their tariffs?

Liberals admit that Ontario and Quebec are coming out second best in the treaty, but prefer to look at it as a levelling out of past inequalities. They see indirect advantages to these provinces in the general increase in trade which they believe will result from the treaty.

Dr. Manion's statement is taken as evidence that the Conservative leader is holding his ammunition until the treaty comes to Parliament where it will meet very little quarter from the Opposition. The new Conservative leader, out to win his spurs, is not likely to pass up any bet.

Mr. Bennett's announcement that he is retiring from public life has brought genuine regret from both sides of the political fence. The former premier will leave his post of freedom behind him when he leaves to take up residence in his English home, especially among the younger set. Mr. Bennett has become the champion of youth. His office has always been open to the young men and women. He likes to hear their ideas, no matter how immature and inexperienced, and to slip in his word of fatherly advice.

Mr. Bennett's withdrawal from Canada, which it is rumored may come even sooner than he has given people to believe, has provided a new and enticing moral for gossip. His statement that he was not regularly a resident of Great Britain is taken as significant and speculation is already rife on what title will be bestowed on the elder statesman when the next King's honors list comes along.

The idea is not without logic. Mr. Bennett and Mr. Chamberlain have

The OTTAWA ListeningPost

(By the Reporter with a Notebook)

Politics can produce more cynics in the world than any other phase of national life—except perhaps its close ally, the tax problem. It is a game in which sportsmanship seldom brings its reward.

This week, Dr. R. J. Manion, new Conservative leader, spoke—or didn't speak—for his party on the Anglo-Canadian-American trade treaty. His statement was fair in the extreme. He counselled, as any broad-minded man might counsel, a testing time for the treaty before it was condemned. He indicated future opposition but didn't oppose.

And not a few federal Conservatives are complaining that the party has been sold out by the political honesty of its leader. Those are not just the words they are using but in effect, that is what they are saying.

If Liberals and Conservatives were the only political factors to be taken into consideration, they would have no quarrel with the party leader's "wait and see" policy. But they are afraid that the C.C.F. may steal their thunder.

Ever since the trade treaty first reared its head as a possible election campaign issue Liberals and Conservatives alike have been chafing at the hope that for once they might be spared the political complications of a vote-splitting third party. The treaty looked like a two-man fight. One had to be for it or against it and they hoped to see the third party under C.C.F. or worse, if it might appear, uncomfortably straddling the fence and talking to an inattentive electorate.

But the C.C.F. has apparently found its ground on the trade treaty fight and is gaining disoriented Conservatives say, which should have been occupied by their party within 24 hours of the treaty announcement.

Under most-favored-nation agreements Canadian tariff concessions on 447 American imports, including the abolition of the excise tax of 8 percent extended to 26 nations including Germany, Italy, and Japan. In other words, the C.C.F. is going to contend, instead of being a boost for democracy, Canada's part in the treaty is playing into the hands of the dictatorships as well as furthering the cause of Japanese expansion. Even the United States, it is pointed out, has excluded Germany from the list.

It may be little more than a talking point but from the point of view of Mr. Woodsworth and his associates it is important. It means that if the two old-line parties try to hog the show the reform groups can at least climb on the band wagon with a "no truck nor trade with the dictator" cry.

The two-party fight looks as though it was going to shape up into one of the merriest tariff battles that Canada has seen for many a year. Removal of the excise tax from American imports will be emphasized by Conservatives as another blow all along the line at the protective wall behind which Canada has been able to develop her industries.

Another cry which threatened to be even more effective will be moved, it is reported, before very long. This is the protest from manufacturers that they were asked to give up the 3 percent protection on the finished products and, at the same time, carry the added cost of an excise tax on raw materials. The government is expected to close this loophole by extending the excise abolition to cover these imports needed for manufacture.

The main line of attack by Conservatives, however, will be the cry that the industrial provinces of Ontario and Quebec are being sold out for the benefit of a free trade West and the coastal provinces. American concessions have been obtained on fish, cattle, coarse grains, fur pelts, and potatoes. The lumber picture in British Columbia, while it still needs some clarifying, is admittedly better than had been expected. On the other hand, Quebec and Ontario get little and, it is claimed, pay the piper in lower textile tariffs, less protection for farm implements and a score of other less drastic inroads on domestic markets.

The industrial provinces will ask, are the industrial provinces expected to pay minimum wheat prices, drought relief, and Hudson Bay railway deficits if they are robbed of the safety of their tariffs?

Liberals admit that Ontario and Quebec are coming out second best in the treaty, but prefer to look at it as a levelling out of past inequalities. They see indirect advantages to these provinces in the general increase in trade which they believe will result from the treaty.

Dr. Manion's statement is taken as evidence that the Conservative leader is holding his ammunition until the treaty comes to Parliament where it will meet very little quarter from the Opposition. The new Conservative leader, out to win his spurs, is not likely to pass up any bet.

Mr. Bennett's announcement that he is retiring from public life has brought genuine regret from both sides of the political fence. The former premier will leave his post of freedom behind him when he leaves to take up residence in his English home, especially among the younger set. Mr. Bennett has become the champion of youth. His office has always been open to the young men and women. He likes to hear their ideas, no matter how immature and inexperienced, and to slip in his word of fatherly advice.

Mr. Bennett's withdrawal from Canada, which it is rumored may come even sooner than he has given people to believe, has provided a new and enticing moral for gossip. His statement that he was not regularly a resident of Great Britain is taken as significant and speculation is already rife on what title will be bestowed on the elder statesman when the next King's honors list comes along.

Consolidation For Salmon Arm District Schools Is Looming

Inspectors To Discuss Current Issue At Gathering This Evening

SALMON ARM, B.C., Nov. 28.—For some time there has been a great deal of discussion on the establishing of a Junior High School in Salmon Arm and the consolidation of the Salmon Arm district schools. Saturday morning the city and district School Boards held a special meeting in this connection.

A general meeting is called for Thursday of this week, when A. S. Matheson, official trustee for the Armstrong Consolidated Schools, A. E. Miller, inspector of schools, and F. T. Magee, chairman of the district board, will be the principal speakers.

Mr. and Mrs. C. Robinson left Saturday morning by motor for Princeton to visit their son and daughter-in-law Mr. and Mrs. Gordon Robinson. After visiting there a few days they will travel to Nelson to visit their son-in-law and daughter, Mr. and Mrs. R. Carlson.

Mrs. A. E. Cummings left Thursday morning to spend a few days visiting in Vancouver.

Constantine and Mrs. C. Thomas, of Mission, are spending a few days in Salmon Arm visiting friends and renewing acquaintances.

W. Holiday left Thursday evening to visit relatives in Vancouver.

Owing to the Dr. Hall being under repair, the Salmon Arm Badminton Club was compelled to suspend play for several weeks. They have now commenced playing in the Gym Hall, which they will use until the alterations are completed.

F. Soles is visiting his mother and relatives in Vancouver for a few days.

Roddy Timpany returned home last week end from Kelowna, where he has been employed for the past year.

Frank Sprague and his son, Leslie, left Thursday for a few days' holiday in Vancouver. "Scotty" Goodall is relieving at the hospital during Mr. Sprague's absence.

A. E. Hardy motored from Kelowna on Saturday afternoon. He left again Sunday morning, taking Mrs. Hardy and two sons, Jimmy and Billy, to their new home in Kelowna.

Mrs. W. Syms is convalescing at her home after several weeks spent in the local hospital.

"Natty" Daggett returned home last week from Timmins, Ont., where he has been employed for several months.

Mrs. J. Sutherland and son, Gordon, left Sunday afternoon for Salmon. Mr. Sutherland has been engaged in mining for the past year.

been close friends ever since the Ottawa Agreements brought them together. The British Prime Minister might easily welcome the opportunity of rewarding a Canadian whose reputation has spread far beyond his native shores.

PLAY APPRECIATED
PENTICTON, B.C., Nov. 30.—With an appreciative audience, a good play, fine directing and an efficient cast, the Penticton Theatre Club's presentation of J. B. Priestley's "Anthem for Doomed Youth" was a distinct success.

WESTBANK, B.C., Nov. 28.—On Monday evening, November 21, well over 100 people, including a number from Peachland, gathered in the basement of Westbank United Church, to celebrate the completion of the building with a supper and program, sponsored by the United Women's Auxiliary. After supper everyone adjourned upstairs to the church to enjoy the entertainment, and many others arrived who had been unable to come out before supper. The chairman, Rev. J. D. Gilliam, invited all to join in a hymn, and after a prayer by Rev. W. R. Ashford, of West Summerland, the Westbank girls' choir gave a vocal number, with Mrs. Lewis presiding at the organ. This was followed by a duet, by Mrs. Hunt and Mrs. Watt, of Peachland, Mrs. Gilliam at the organ.

George MacKenzie, of Kelowna, gave vocal selections during the evening, which were much enjoyed. Letters of greeting from the Rev. Humphrey Pearson, Rector at Summerland, and from two former ministers of the United Church here, Rev. J. H. Scott and Rev. F. Chilton, were read by Mr. Gilliam, these letters conveying congratulations on the fulfillment of a long-cherished dream by Westbank United Church members—the completion of the church building.

Several speakers also brought greetings from their districts, and among these were the Hon. Grote Stirling, M.P. of Kelowna; Rev. Mr. Ashford, of West Summerland; Rev. Mr. Yosioka, of the United Church Japanese Mission, Kelowna district; Rev. Dr. W. W. McPherson, of Kelowna, the latter also giving a very interesting address on his recent trip to Scotland. Peachland and Westbank choirs gave several selections, and the evening closed with the singing of the hymn, "Blest Be the Tie That Binds." The sum of \$45 was added to the W.A. funds, as a result of the supper served by its members.

On Saturday many of the parents of Westbank school pupils gathered in the school grounds to do some clearing and other improvements which had been planned beforehand. Pupils and teachers were also there, and quite a lot of work was accomplished before dusk set in. Truck-drivers lent their trucks and their trucks in moving rocks and trees off the grounds, and if the weather is still mild next Saturday, it is planned to put in another half-day's work on the grounds, which should then present quite an altered appearance.

While riding his bicycle down the hill to Power's Creek on Saturday, young Jackie Currie skidded into some loose gravel and sustained quite a bad fall. He was taken to Kelowna hospital, and it is feared that he has a fracture of the forearm.

Mrs. J. L. Dobbin left early last week for a holiday in Saskatoon, her former home.

Mrs. J. U. Gellatly left on Saturday for Vernon, where she will spend two or three weeks with Mr. and Mrs. I. Hurlbert. J. U. Gellatly also spent the week end in Vernon, returning home on Monday.

100 PEOPLE GATHER TO CELEBRATE CHURCH OPENING AT WESTBANK

WESTBANK, B.C., Nov. 28.—On Monday evening, November 21, well over 100 people, including a number from Peachland, gathered in the basement of Westbank United Church, to celebrate the completion of the building with a supper and program, sponsored by the United Women's Auxiliary. After supper everyone adjourned upstairs to the church to enjoy the entertainment, and many others arrived who had been unable to come out before supper. The chairman, Rev. J. D. Gilliam, invited all to join in a hymn, and after a prayer by Rev. W. R. Ashford, of West Summerland, the Westbank girls' choir gave a vocal number, with Mrs. Lewis presiding at the organ. This was followed by a duet, by Mrs. Hunt and Mrs. Watt, of Peachland, Mrs. Gilliam at the organ.

George MacKenzie, of Kelowna, gave vocal selections during the evening, which were much enjoyed. Letters of greeting from the Rev. FORMER STAR ATHLETE DIES AT GLENMORE

KELOWNA, B.C., Nov. 30.—A former well known Eastern Canadian athlete, Philip Henry Ward, 78, died at Glenmore on November 28 last, at the family home.

Mr. Ward, born in the Old Country, came to this country at the age of seven years, and with his parents settled in Sherbrooke, Que. There he resided for most of his life, until 1920, when he came west to Glenmore to live with his son, Jack Ward, in Kelowna.

In his younger days Mr. Ward took a keen interest in athletics of all kinds, but especially hockey and lacrosse. He played for the representative Sherbrooke hockey and lacrosse teams for years and when he became too advanced in years to actively participate he turned his attention to coaching and directing the teams.

He was a great athlete and will be long-remembered in the East by those who benefited by his training and coaching of the many fine teams turned out by Sherbrooke.

EWING'S NEWS ITEMS

EWING'S LANDING, B.C., Nov. 28.—Mr. and Mrs. Jack Breesey have returned to their home here, after a week's holiday spent with relatives in Vancouver.

Mrs. Pease and her son, Hugh, have closed the Forest House for the winter months, during which time they will reside in Vancouver.

Mr. and Mrs. Angus Gray drove down to the Coast a few days ago, en route to Victoria, where they made a short stay.

An Unusual Christmas or New Year's

Prepay a Ticket

Is there someone you would like to have with you this Christmas? If so, here is a delightfully unusual gift—a rail ticket. Simply get in touch with your nearest Canadian Pacific agent, give him full particulars and he will arrange delivery.

School Children

This service is invaluable to parents whose children are coming home from school for the holidays.

PROMPT DELIVERY ASSURED NO EXTRA CHARGE FOR THIS SERVICE

See your local ticket agent or write to C. Bruce Brown, General Passenger Agent, C.P.R. Station, Vancouver, B.C.

RELIEVES

Fiery, Itching Skin

Here is a clean, stainless, penetrating, antiseptic, new dispensing by chemists at trifling cost.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds but boils and simple ulcers are relieved and cleanly healed.

In skin diseases the itching of Eczema is instantly stopped. Pimples—skin eruptions dry up and scale off in a very few days. The same is true of Barber's Itch, Salt Rheum and other inflammatory skin disorders.

You can obtain Moore's Emerald Oil (full strength) in the original bottle at Nola's or any modern drug store.

SUBSTANTIAL DEMAND FOR APPLES IN EAST FORESEEN BY BARRAT

"From present indications it appears likely that there will be a substantial demand for apples during the remainder of the season from Eastern Canada," states George A. Barrat, director of B.C. Tree Fruits Ltd.

"This applies particularly to Montreal, as Quebec supplies are now practically exhausted and Ontario's are being held at fairly high prices."

Discussions are now under way at Montreal with a view to moving good quantities of large sized McIntosh. These discussions will be completed soon and shippers will be advised if results come from them.

In the meantime it is important that orders should not be accepted from Montreal calling for straight cars of McIntosh, size 138. "If such orders are accepted we will find ourselves shortly with only 125's and larger, and may have to reduce prices whereas there should be no difficulty in obtaining list for 125's and 138's if shipped together. Larger sizes, which are not popular in Montreal, will have to be reduced if any volume is to be moved to that market. However, no quotations under list, even for large sizes, should be given until after the question has been discussed fully at Montreal."

The above applies to Extras and Fancies. C grade should be quoted 138 and smaller.

FRUIT WHOLESALE MEET IN WINNIPEG EARLY IN JANUARY

What promises to be one of the largest conventions likely to be held in Winnipeg next year opens at the Fort Garry Hotel, January 10 next, and continues for three days.

This will be the 14th annual meeting of The Canadian Fruit Wholesalers' Association, which draws attendance from every Canadian province between the Maritimes and British Columbia, as well as from many parts of the United States.

Last year the convention was held in Ottawa. Based upon the agenda forwarded at the last year's conference, it can be taken for granted that the questions up for discussion will closely concern all branches of the fruit industry and the decisions arrived at during the convention will have a wide bearing upon the trade as a whole.

Immediately following the close of the conference a tour has been arranged through British Columbia and California, returning via New Orleans.

The purpose of this is to permit of visiting the great fruit producing sections and also those interested will be able to take in the 50th annual meeting of the B.C. Fruit Growers' Association at Vernon.

CALGARY LIVESTOCK

Three-Way Partnership Of Industry, Science, Agriculture

"Now There Can Be Positive Progress Towards Complete Recognition Of Agriculture"

Session At Toronto Is Convened By Chamber Of Commerce

By C. A. HAYDEN
Editor "Country Life in B.C."
(Special to The Vernon News)

TORONTO, Ont., Nov. 22.—Practical three-way partnership including industry, science, and agriculture was established on a definite basis here yesterday at a conference of some 85 key men from all parts of Canada. These representatives of business and finance, of research organizations and of the various branches of agriculture, along with executives of provincial and federal departments of agriculture were called together by the Canadian Chamber of Commerce, the arrangements having been made by Hon. D. G. McKenzie, former Minister of Agriculture for Manitoba, at the invitation of the officers and executive of the Chamber, whose president, J. S. McLean, of Toronto, opened the conference and then turned the chairmanship over to Mr. McKenzie.

Discussion was free and frank, amazingly frank, so much so that summing up the deliberations, President McLean declared that the air had been cleared and the path opened so that now there could be positive progress towards the full recognition of agriculture as the foundation of Canada's economic structure.

AGRICULTURE HAS BEEN NEGLECTED

"Agriculture in Canada has been neglected," Mr. McLean said and he was speaking for business interests generally as well as for the Canadian Chamber of Commerce. "When the interests of agriculture are promoted, the interests of the entire country are promoted. We recognize that agriculture in Canada has not been in good condition in recent years. The Canadian Chamber of Commerce has called this conference in the hope that measures may be organized whereby this condition will be improved. The Chamber wants to place all its facilities at the disposal of agriculture and of those who will be working to help re-establish agriculture."

"Anything that assists in marketing of our agricultural surplus will have an enormous bearing on our national welfare. It will be a mistake if we do not make a start today. We shall never get anywhere if we do not make a start marshalling our industrial services, our farm services and our scientific services in some fashion so they can co-operate."

SET UP COMMITTEE

Following this summing up, Clinton Henderson, of Montreal, past president of the Chamber, moved the resolution which called for the setting up of a national cross-section committee and named the members of this committee. The resolution, given in full in the adjoining column, defines the work to be done.

While the terms of the resolution direct that the committee report back to another meeting to be held in 1939, the philosophy of the undertaking is that there will be a driving force behind the movement, that there will be constant contact between the committee members and all others interested, and that there will be a campaign of education for the purpose of arousing and sustaining not only the business, scientific and agricultural interest but also public interest to the end that the vital relation of agriculture to Canada's welfare may become a matter of common knowledge.

Contribution of their laboratory and other facilities to this cause was offered from many sources, including the National Research Council, the Ontario Research Foundation, the Canadian Chemical Association, the Canadian Institute of Chemistry, the Canadian Manufacturers' Association, the Dominion Brewers' Association, the Canadian Society of Technical Agriculturists, the Canadian Chamber of Agriculture, the Canadian Fruit Growers' Association, the Manitoba Pool Elevators, C.P.R., C.N.R., Canada Packers Limited, Messers-Harris Co. Ltd., General Motors of Canada Ltd., and the Ford Motor Co. of Canada Ltd.

J. S. Duncan, vice-president and general manager of Messers-Harris Co. Ltd., Gordon McGill, Toronto, manager of the tractor division of the Ford Company, Reg Grubbe, of Canadian Industries Limited, and W. D. Black, C.M.A. president, were among those who supported the movement, graciously and who pledged the full co-operation of their organizations in every possible way.

By invitation of Chairman McKenzie, O. A. Hayden, as secretary of the British Columbia Fruit Growers' Association, and J. S. Duncan, as secretary of the Canadian Chamber of Agriculture, were invited to open the afternoon discussion. He emphasized, as had Dr. H. Barton, Deputy Minister of Agriculture, Ottawa, the potential commercial uses of edible products of agriculture as well as their uses for inedible purposes, as had been proposed in the original agenda of the conference.

Mr. Hayden cited, as a typical instance of the problem which primary producers were facing, that of the apple growers. For example, the Dominion scientific research department at Ottawa, and elsewhere, had established processes for making apple brandy, elder vinegar, natural juice, apple confect, and other food and drink products. But when the research men established the processes, they stopped because their work in this particular direction was finished, and they turned their attention to other research matters.

AWKWARD POSITION

This left the growers in the position where they had to organize plants and merchandising mechanisms. Mr. Hayden said that this put the growers in an awkward position from which they could not extricate themselves because they did not have the means to do so. The scientists had done their part; the growers had done their part; it remained for the industrial element to do theirs and he submitted

300 POTATO GROWERS OF LOWER MAINLAND HONOR K. C. MACDONALD

Unusual Tribute Paid To Minister's Efforts In Marketing Control

CHILLIWACK, B.C., Nov. 25.—More than 300 potato growers of the Fraser Valley from Ladner to Chilliwack honored Hon. K. C. MacDonald, minister of agriculture, at a banquet in Cloverdale, the unusual gesture being a tribute to the success of the minister in stabilizing marketing legislation.

All the speakers, from J. T. Brown, former premier, chairman, to Les Gilmore, former member of the potato board, who introduced the toast of honor, eulogized Dr. MacDonald as a champion of the agriculturist who had been untiring in his efforts to improve the lot of the farmer.

DISCUSSES CONTROL

In responding to the toast and the ovation, Dr. MacDonald discussed many angles of marketing control and made it clear that where there is heavy production of a commodity, proper control is essential for the general good. However, 100 per cent co-operation by all producers is necessary to proper control. The minister said that potato growers would be given an opportunity to vote on control shortly and did the milk producers a week ago.

"We have set up laws to protect labor, hours of work and minimum wages, therefore it is just as fair to protect the agriculturist by legislation," declared Dr. MacDonald. "The producer must be considered in the same position as labor."

RAISE ORIENTALS

The low living conditions of Oriental producers was considered a real menace by Dr. MacDonald and other speakers.

"Their living standard must be raised to that of the white, or else the white standard will drop. The welfare of the white producer must not be jeopardized by the Orientals," Dr. MacDonald said that when he went to the Legislature he determined to reduce some of the abuses in agriculture, particularly the huge spread between producer and consumer. For example, potatoes in 1933 brought \$6 a ton to the producer and were sold at \$33 a ton to the consumer. He paid tribute to the courage of the marketing board which was blocked by inadequate legislation.

IMPROVEMENT

Improvements in marketing control in the future were forecast by the minister. He intimated that control might eventually become national to prevent dumping between provinces. Supervision of the various commodity boards in B.C. was also being watched and guided by a provincial board of civil servants.

Speakers included Reeve A. C. Hope, Langley; D. W. Strachan, M.L.A., Dewdney; E. D. Barrow, Chilliwack; W. L. Macken, Chilliwack; Tom Reid, M.P.; Ald. J. deGraves, Vancouver; Reeve John Hunter, Surrey; Reeve A. D. Ferguson, Delta; Reeve R. Grauer, Richmond; D. E. MacKenzie, New Westminster; A. Swenson, chairman of the Potato Board, and others.

Ex-Officio: J. S. McLean, President, The Canadian Chamber of Commerce; W. D. Black, President, Canadian Manufacturers' Association; J. H. Wesson, President, Canadian Chamber of Agriculture.

Conference Resolution

This conference, representative of various phases of Canadian agriculture, industry and scientific research, is impressed with the desirability of developing the prosperity of agriculture, which is the basis of the Dominion's economy, and holds the belief that whatever practical steps can be taken to find new and expanded markets for farm products will contribute to the agricultural and hence the national welfare.

One of the means toward this end the Conference believes is a more intensified application of scientific research for the purpose of finding new edible and inedible uses for farm products.

The Conference heartily endorses the research work now being done by the National Research Council, by the Research Foundations and the Universities, by many governmental agencies and by private industrial laboratories and is desirous of seeing given to this present effort the utmost greater point, emphasis and support.

To this end the Conference believes a fact-finding survey of present scientific research facilities and accomplishments on behalf of agriculture throughout Canada, the United States and elsewhere would be of great value and help in encouraging the amplification of scientific research, while the issuing of such a survey would aid in publicizing the valuable work already being carried on. A further objective of such a survey could be the stimulation of recommendations looking toward the enlargement of the national farm income through the creation and expansion of markets for Canadian farm products as industrial raw materials and looking toward improving the practical relationship between agriculture, industry and science. It is clear that a growing volume of tangible products from the farm, if moved into the channels of manufacture and commerce, would stimulate general employment of idle arms and of idle hands.

The Conference would therefore recommend the appointment by The Canadian Chamber of Commerce of a National Chemurgic Committee,

SALMON ARM COUNCIL TO ASK GOVERNMENT FOR "CHEAP MONEY"

Funds, If Secured, To Be Used For Improvements To Water System

SALMON ARM, B.C., Nov. 25.—In order that an ample supply of domestic water may always be on hand the City Council has decided to apply for a loan of money from the Federal government under the municipal loan act to complete the south tank and probably install some new piping in the city distribution system.

M. L. Wade estimated that the cost of completing the south tank would be close to \$2,000 which would give nearly 1,500,000 gallons of water. To make the north tank fit to hold 300,000 gallons would cost \$4,000. Alderman Farney thought it would be wiser to use this latter sum for new pipes and after some talk this idea prevailed. Mr. Wade will be invited to make recommendations on the subject. The proposed loan would bear interest at 2 per cent.

Another move by the council was to give Alderman Day authority to purchase 300 feet of 1½ inch hose and couplings for fire-fighting. The Alderman only recommended getting 200 feet but Alderman Glasgow thought it was not sufficient. The cost will be around \$50.

Alderman Carroll brought up again the need for a siren at the firehall but this was shelved until next year. The deputy fire marshal at Vancouver had informed Alderman Day that it might be possible to purchase fire alarm equipment very reasonably from the Coast and this will be looked into.

Mayor Thomson brought up the question of getting legal assistance at a fixed rate similar to the District Council. He was instructed to go into the matter further and get the necessary data when the council will probably follow his recommendation.

A review of the preamble to the new license bylaw was made and it will be brought up at a special meeting so that the bylaw will be put into effect at the beginning of the year.

Beer Plebiscite At Rutland Probable

"Wets" And "Drys" Circulating Petitions Among Residents Or Area

RUTLAND, B.C., Nov. 28.—The prospect of a beer plebiscite in Rutland is causing a good deal of activity in "wet" and "dry" circles hereabouts. Petitions for and against the holding of such a plebiscite are being circulated.

The recent court revision of the voters' list saw almost forty new names added to the list, bringing the total of qualified voters to well over 600. Those in favor of the granting of a beer licence in the community claim that if the plebiscite is carried a hotel will be built in the vicinity of Reid's Corners.

A meeting of ratepayers was held in one of the school classrooms on Friday evening, to consider the question of the public library. The meeting was not very largely attended, but after a general discussion it was decided to hold a plebiscite on the continuance or otherwise of the assessment for that purpose.

Mrs. H. A. Noble left on Saturday morning for Calgary, Alberta, where she will visit relatives.

The employees of the local packing house of McLean & Fitzpatrick Ltd., held their annual wind-up dance in the Community Hall on Friday evening. These dances have been very popular and tickets were in great demand this year. As a result the hall was jammed with a crowd of over 300 dancers, who spent a very enjoyable evening listening to the music of Roy Henderson's orchestra. The hall was attractively decorated with "Zenith" brand labels, colored balloons, and streamers.

Decision to discontinue the Pro-Reed classes was made at a meeting held at the Community Hall on Wednesday last. Lots of interest, particularly among the young men and boys, was the reason for the decision.

Judges At The Royal Winter Fair

Up at dawn were these enthusiastic young women who came to Toronto from afar to judge at the Royal Winter Fair. Each is a winner of provincial judging contests sponsored by the Canadian Council on boys' and girls' club work, which is associated with the federal department of agriculture. A. E.

PENTICTON SENIORS OUTCLASS REVELSTOKE

PENTICTON, B.C., Nov. 26.—Penticton's Senior B hoopers trimmed Revelstoke 43-37 in a fast-moving game at the Scout Hall Thursday night. In the preliminary, Penticton's Intermediate B's downed a Kerecotes team by 48-29.

The local senior squad led all the way after the first minute of play, when Revelstoke ran in two quick baskets. The Penticton five piled up a steady lead that stood at 21-16 when the half-way gong rang out. In the final quarter, Revelstoke came through with a spurt that nearly overtook the local crew's score, but the Penticton boys increased the pressure and outdistanced the visitors.

Although badly outclassed in the science of the game, the Kerecotes crew put up a splendid battle against the faster-moving opponents. The half-time score in this fixture stood at 30-8 in favor of the Penticton B's.

TOO MUCH BEEF, VEAL IN TRINITY VALLEY—SO BUCK DEER ESCAPE

TRINITY VALLEY, B.C., Nov. 26.—Hunters are out following deer tracks in the early snow on the hills. There has been quite a lot of shooting, mostly with visitors from outside. The average man up here has beef and veal to spare, owing to the hay shortage for feeding stock and the poor market for meat. The knowledge of so much meat in the larder, is enough to dull the appetite of the sportiest of nimrods.

Residents had a little cold spell of 8 degrees above zero during last week, but it fortunately only lasted a couple of days.

A. S. Matheson, school inspector from Kelowna, spent the day morning with the school pupils.

Harry Villet is staying at his place, spending a short holiday in this valley.

F. Barnes is the only one still hauling timber on the roads now, the roads being mostly free of snow, but very slippery.

BOX SUPPER, DANCE HELD AT RICHLAND

RICHLAND, B.C., Nov. 26.—The Richland Community Club held a box supper and dance on the evening of November 26, in the Richland Hall. Proceeds were for a Christmas treat for the school and other children in the district.

A. S. Matheson, school inspector from Kelowna, inspected the school on Wednesday.

S. Jones and family have returned to their home on North Fork, after a summer spent in mining operations in the mountains at Monash.

After nearly a week of rain, which took off all the snow, the weather has turned colder and one night was down to 15 degrees above zero.

D. DUNWOODY, VETERAN OF THE GREAT WAR, DIES IN KELOWNA HOSPITAL

KELOWNA, B.C., Nov. 30.—After a lengthy illness caused from the effects of the World War, David Dunwoody, well known Kelowna man, passed away at the General Hospital on Wednesday, November 16, at the age of 62.

Born in Lisburn, County Antrim, Northern Ireland, on June 30, 1876, Mr. Dunwoody came to Canada in 1901 and was engaged in the hardware business in Vancouver. He came to Kelowna in 1920 and worked with the Leckie Hardware and for many years with the succeeding business, the Bennett Hardware.

Funeral services were held on Saturday afternoon, November 19, with Rev. Dr. W. W. McPherson officiating. It was largely attended by members of the Masonic lodge, war veterans and business associates. The casket was draped with the Union Jack. Last rites at the Kelowna cemetery were conducted by the Canadian Legion, the Last Post being sounded.
